165 E. 56 St.  
New York, NY 10022

Dear Marc:

With The Jesus Connection still in mind, we are about to publish another book on anti-semitism that we hope will make an impact for good.

It is ANTI-SEMITISM: A DISEASE OF THE MIND. And it's author is none other than Dr. Theodore Isaac Rubin. We think it is good and powerful stuff.

Marc, I am taking the liberty of enclosing a copy of the manuscript here.

I would be most grateful if you could find some time to look at it and perhaps provide me with two or three sentences of comment that we could use on the back cover and in other promotion.

As with Leonard's book, we are asking several famous people such as yourself for brief blurbs; Dr. Rubin may be a very popular author but the subject is not popular and we want to give the book as much push as we can.

If it were possible for you to send or phone me a comment before the end of May, that would be great; but I surely am willing to wait longer, knowing your busy schedule.

With all best wishes to you.

Sincerely,

*Michael Leach*

ANTI-SEMITISM: A DISEASE OF THE MIND by Dr. Theodore Isaac Rubin  
is a penetrating and provocative examination of the "symbolic sickness"  
of anti-Jewish hatred and other forms of the pathology of bigotry. Written  
in lucid and intelligible language, this compelling work is a ~~fundamental~~  
powerful instrument for overcoming the psychopathology of anti-Semitism  
and containing the victimization of ~~the~~ Jews and other peoples.

Anyone concerned about liberating human society from these ancient  
diseases of prejudice and dehumanization should regard Dr. Rubin's latest  
work as most reading.

~~ANTI-SEMITISM: A DISEASE OF THE MIND~~ ---

by Dr. Theodore Isaac Rubin, published by Crossroad/Continuum

---

"Anti-Semitism: A Disease of the Mind" by Dr. Theodore Isaac Rubin is a penetrating and provocative examination of the "symbol sickness" of anti-Jewish hatred and other pathological forms of bigotry.

Written in lucid and intelligible language, this compelling work is a powerful instrument for overcoming the psychopathology of anti-Semitism and other deep-seated prejudices.

This book is essential reading for anyone concerned about liberating human society from these ancient diseases of group hatred and dehumanization which ~~which~~ afflict so many parts of the world today.
