

THE JACOB RADER MARCUS CENTER OF THE
AMERICAN JEWISH ARCHIVES

Preserving American Jewish History

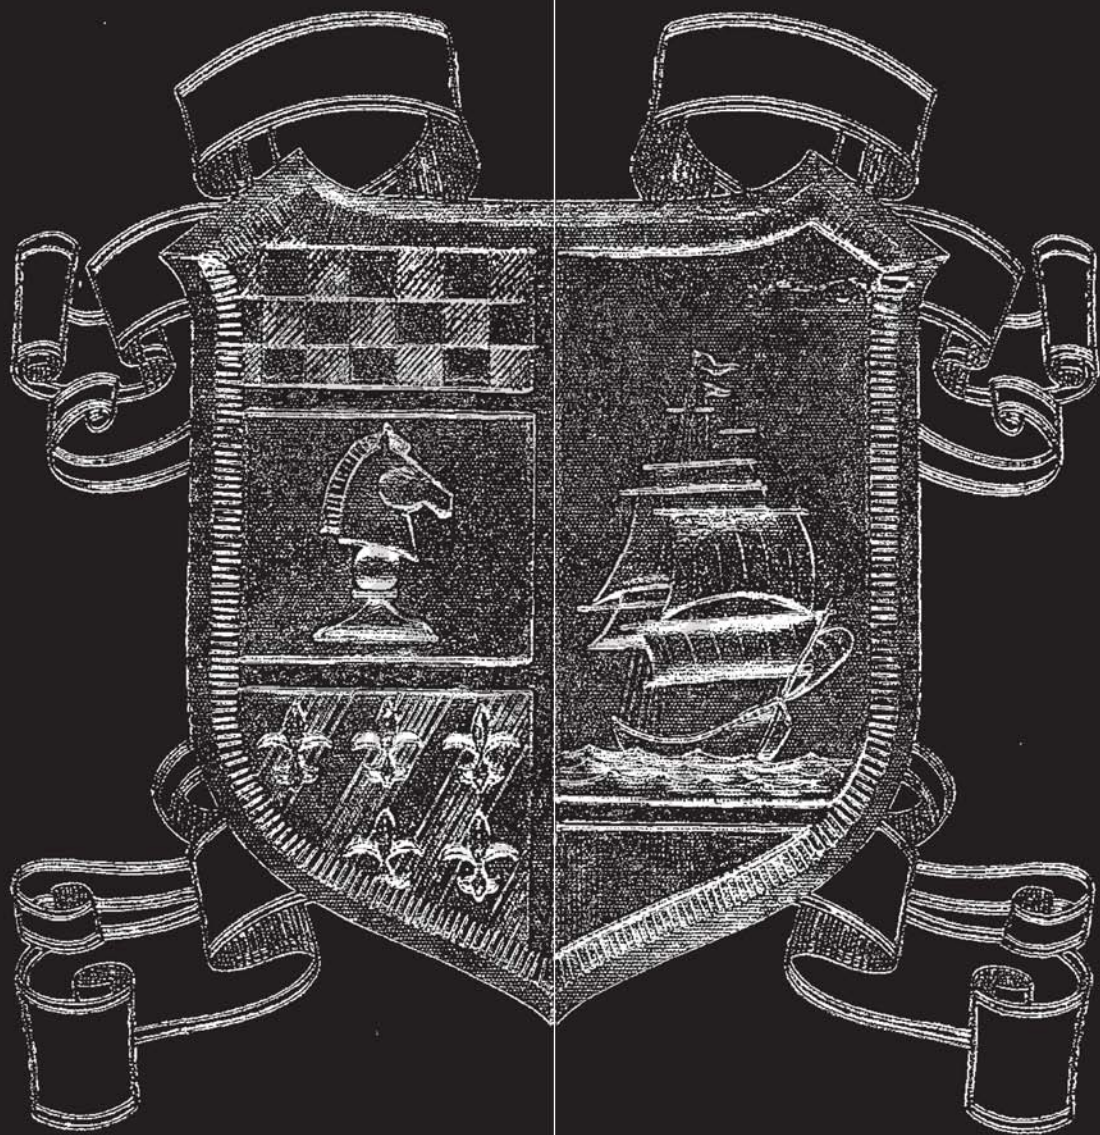

MS-603: Rabbi Marc H. Tanenbaum Collection, 1945-1992.

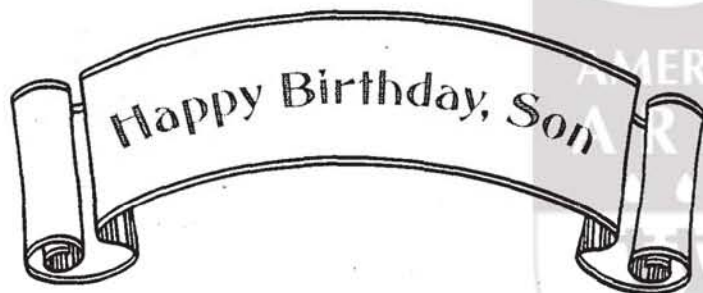

Series E: General Alphabetical Files. 1960-1992

Box 92, Folder 4, Tanenbaum, Sadie, 1974-1977.

With Love, SON,
on your Birthday

To wish you lots of happiness
Good luck in all you do
And even more,
to bring the love
That's always meant for you

*With best wishes for the
new year.*

Jade Mother

Trees have been planted in Israel

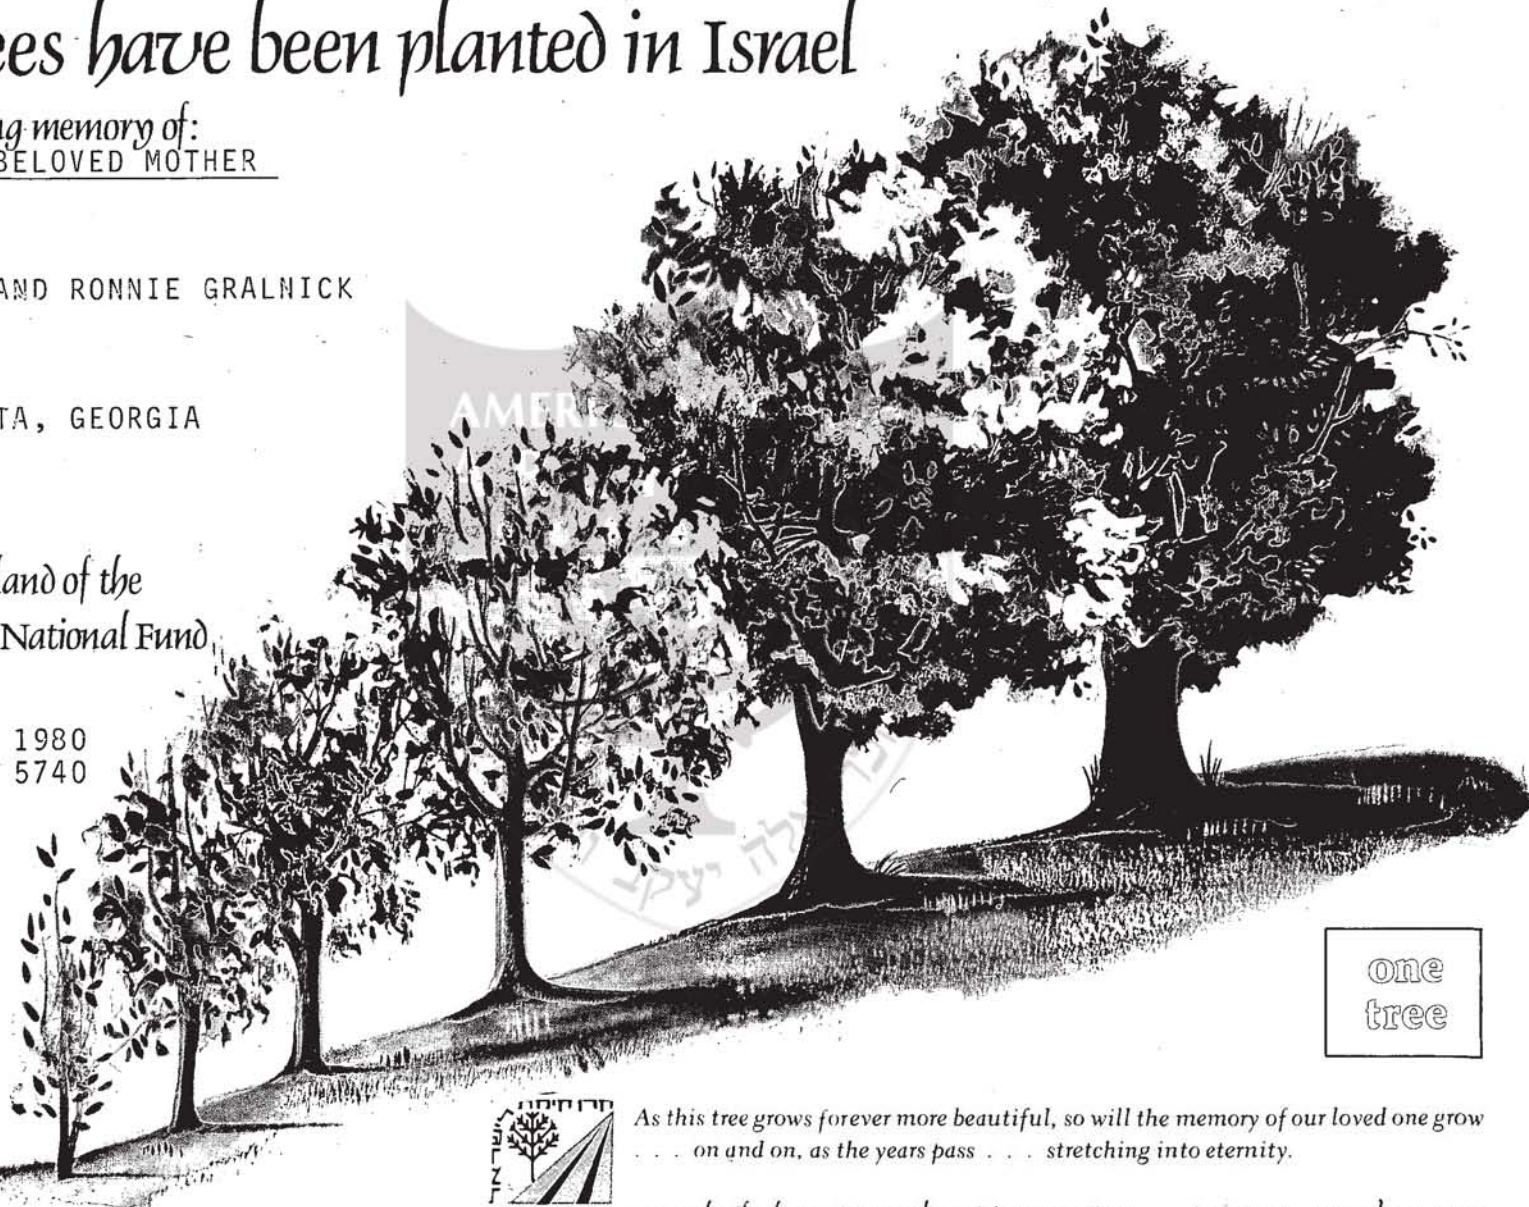

in loving memory of:
YOUR BELOVED MOTHER

NISAN 5740

one
tree

As this tree grows forever more beautiful, so will the memory of our loved one grow
... on and on, as the years pass ... stretching into eternity.

Eternal Life the Lord Has Planted in Our Midst

חיי עולם נטע בחוקנו

**Say it
with
trees**

A new way of saying

'Mazeltov'

on a birth, Brith Milah, Pidyan Haben, Barmitzvah, engagement, wedding and every kind of simcha

'Thank you'

for a pleasant evening, for your good wishes—in fact, on any occasion as an expression of gratitude.

'Good wishes'

for the New Year and every other Yomtov, for a birthday or anniversary, for a speedy recovery

'Condolences'

on the passing of a relative or friend or as a memorial gift.

Say it with trees

Send a tree certificate. It makes an ideal gift.

More lasting than flowers, more thoughtful than chocolates, more personal than a card . . .

And more appreciated!

Each certificate will record the planting of trees in Israel in the name of the person of your choice on a particular occasion.

And you will be helping to make Israel's barren hillsides green again.

AMERICAN JEWISH ARCHIVE

trees

- **Fight Pollution**—Forests protect communities against soil erosion, absorb dust and gases, improve the climate.
- **Create Recreation Areas**—Parks and greenbelts are made possible for the local population, woods for day-long outings and picnic and camping areas.
- **Transform the Landscape**—Forests cover barren mountain slopes, create oases of greenery in desert areas, and brighten the urban scenery.
- **Yield Economic Gains**—Forests popularize tourist spots, supply timber, provide fodder for grazing of livestock.
- **Strengthen Security**—Forests provide a physical presence in Israel's border areas and form a line of defense against infiltration.

Huge areas of waste have been transformed into flourishing forests, helping to repair the ravages of centuries of neglect.

**SO MUCH HAS BEEN
ACHIEVED—SO MUCH
MORE REMAINS TO BE
DONE.**

You May Plant Your Own

GARDEN
GROVE
WOODLAND
OR FOREST
in Israel

- A GARDEN
(100 Trees minimum)\$ 300.00
