Dear Rabbi Tanenbaum:

We are delighted that you will be with us at the Women's Division, American Technion Society Annual Medical Engineering Luncheon on Sunday, March 29, 1981 at the Hotel Pierre.

It will be a privilege for us to honor you and present you with our Award for your extraordinary work on behalf of the Jewish people. We know that our members and guests will be gratified to hear you speak and that your presence will make this a very special occasion.

Would you please have your office send us a photograph of you and a brief biographical sketch for our use in preparing an introduction and publicity. We would appreciate having this material as soon as possible.

We have enclosed our brochure "Who Are the Women of Technion?" so that you may familiarize yourself with our organization. This Luncheon focuses attention on our Medical Engineering Program, through which we have provided over a million and a half dollars for facilities and research at Israel's Technion.

We sincerely thank you for graciously accepting our invitation to be our Guest of Honor and we look forward to having you with us on March 29th.

Cordially,

*Pearl S. Milch*
