Dear Nat:

I just learned that your house was completely destroyed by fire. I don't know who was playing with matches, but I can certainly imagine how shocked and upset you must be.

As I understand it, thank God nobody was in the house and therefore nobody was hurt, and that, after all, is the main thing.

With your usual persistence and courage, I am sure you will rebuild from the bottom up and that the new structure will be better than the old. Please know that your many friends are thinking of you at this moment and wish for you the recovery you will undoubtedly make. When it is all over you will have to have a big party and invite everybody to see the new premises.

As ever,

Dear Friedman "Mishpachah",

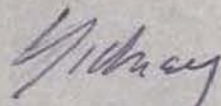

As you know I will be in New York soon to start a speaking tour on February 21. I hope that Ida and I will have an opportunity to get together with you and particularly to take a look at the "bubele".

Tunis has been compensating in some respect but it has been lonely without the family and I am, of course, making plans to return permanently to the States. Herb, you know how much I value your help and judgment. For your reference I am enclosing a summary curriculum vitae. Because of my close identification with Jewish life I would prefer to stay in the Jewish field. However, if nothing suitable develops, I would be open to other possibilities. I have in mind a top administrative post in the 20,000 Dollar range. I know there are not too many of these around but I feel that only this type of position could make full use of my over-all background and experience.

When I discussed my relocation problem with you last time in Paris you both extended a very warm and gracious hand of support. I am sure you know how deeply I appreciate this opportunity to confer with you. Please let me hear from you soon.

With warmest regards and best wishes.

Cordially,

Dear Sidney:

I have just received your letter of 19 January and look forward to seeing you when you arrive in New York to start your speaking tour at the end of next month.

Between now and then, however, I think there are a few things you could do with regard to your "relocation problem." I do not know whether you are interested in a position as Executive Director of a community, but a game of musical chairs is about to open up, because jobs are now available in Chicago, Baltimore and St. Paul. As these jobs are filled other jobs open up, and executives move around from city to city in this game, which I call musical chairs. It would seem to me that the best thing for you to do would be to throw your hat in the ring immediately with Phil Bernstein of the CJFWF. The communities go to the Council for recommendations for candidates and if the Council knows that you are available and wish to be recommended, I am sure they would cooperate. For instance, I have heard, although I do not know this personally for a fact because I have not spoken to him, that Jimmy Rice was interested in the Chicago job and was recommended by the Council for it. He is not the only candidate, of course.

I would suggest that you write immediately to Philip Bernstein, Council of Jewish Federations and Welfare Funds, 729 Seventh Avenue, New York, 19, N. Y., send him your curriculum vitae, and let him put you on their list.

Dr. Sidney Nelson

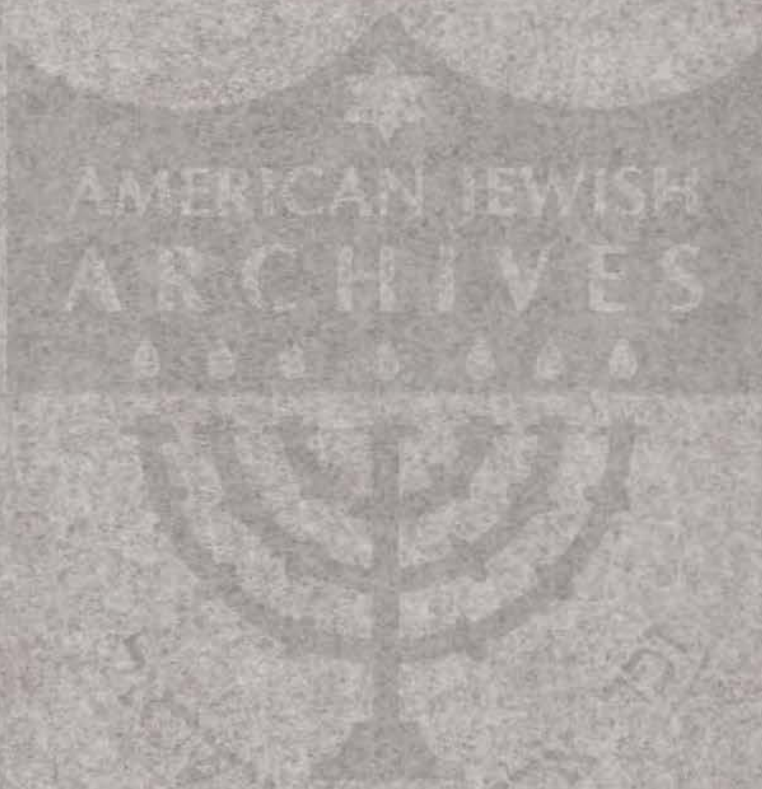

-2-

27 January 1965

Also, if you wish, I will talk to Phil personally and tell him what I know about you and give him a very strong push to recommend you for any of the openings. Let me know if you want me to do this and I will be happy to speak to him immediately upon hearing from you.

With all good wishes and looking forward to seeing you, Sam,

Dear Rabbi and Mrs. Friedman,

The construction of our new Israel Museum here in Jerusalem is in its final stages and we have set the date for a gala opening. May I suggest that you put Tuesday, May 11, 1965 on your calendar, and consider this a preliminary invitation.

As Israel's 17th Independence Day falls a few days earlier - May 6th - you might plan your visit to include both events.

The Museum site is already one of the beauty spots of the capital with its pavilions clinging to the hillside. They blend well with the structures of the University to the west and the new Knesset building to the immediate north. At the foot of the Museum hill lies the ancient Valley of the Cross with its magnificent Byzantine and Crusader Monastery. Recently, it has been decided to convert this valley into a National Park, appropriately landscaped, to add enchantment to the Museum setting.

A cluster of wooded embankments, retained by revetments of huge boulders, has taken shape as the Billy Rose Art Garden. In conceiving this scenic layout for the great sculpture collection we have been given, Isamu Noguchi may well have produced his most imaginative artistic creation.

For the inauguration of the Museum, buildings and settings are themselves the principal exhibit. Yet we have decided to mark the event with a special exhibition befitting the opening of a great new museum in Jerusalem - a display of "Works of Faith" inspired by the Bible. The central feature will be a collection of some seventy artistic treasures on the theme of the Old Testament loaned to us by noted museums and private collectors from the United States, Canada, Britain, France, Belgium, Holland, Austria, Germany, and Italy. We shall also be showing a collection of fifty Rembrandt drawings and prints of Old Testament subjects, and a joint Marc Chagall-Jaques Lipchitz exhibition on the same theme.

On exhibition in the Samuel Bronfman Biblical and Archaeological Museum will be the most dramatic of the finds from the latest excavations in the country. The Shrine of the Book will show the seven Dead Sea Scrolls as well as the scroll discoveries from recent archaeological expeditions.

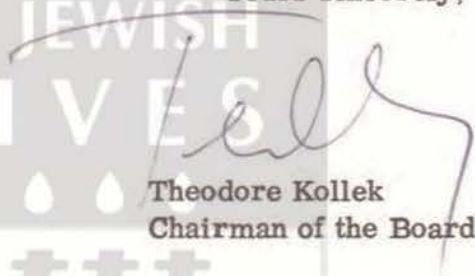

We are planning a number of events for our distinguished guests, in addition to the inaugural ceremonies beginning on the night of May 10th and continuing on the 11th and 12th. It would help us greatly if we knew how many will be accompanying you so that we may send you the requisite invitations.

We have appointed Travex Ltd., Jerusalem, as our official travel agents and have asked them to contact you regarding any assistance you may require with hotel and other arrangements.

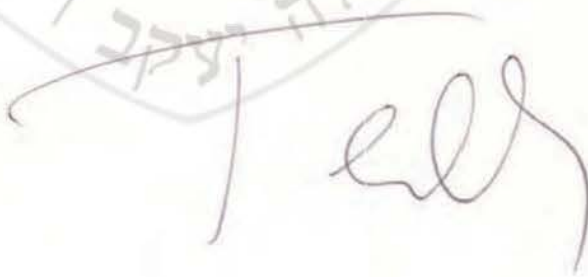

We look forward to welcoming you here in May.

Yours sincerely,

Dear Teddy:

We have your invitation to attend the gala opening of the Museum on Tuesday, 11 May.

I am really delighted to be able to accept, because by wonderful coincidence we will be in Israel for a week at that time. Francine and I will be arriving just before Independence Day and we will be happy to be included on your invitation list.

We will not require any assistance from Travex, Ltd. because we will be making our own travel arrangements from this end.

Dear Rabbi and Mrs. Friedman,

As you already know, we are planning the gala opening of the Israel Museum for the 10th, 11th and 12th of May, and I do hope that you will find it possible to be with us on this occasion.

The first official event of the opening will be an exhibition entitled "Trends in Israel Art", in which approximately fifty local artists will be exhibiting their work. This will take place on the evening of May 10th, and will be followed by a festive supper. The program the following morning, May 11th, will see the dedication of the Museum in the presence of the President of the State, who will have a special reception for invited guests later that day. In the evening, an archaeological conference will open in Jerusalem, in honour of the Museum. The following day on May 12th, there will be a lecture series by important personalities from the art world.

We have already begun to receive indications from people in all parts of the world, telling us they expect to be on hand for the opening and I hope that you will arrange your plans so as to be here as well.

Thank you very much for your kind letter of invitation to attend the gala opening of the Israel Museum for the 10th, 11th and 12th of May.

Mrs. Friedman and I are hoping very much to be in Israel at that time, and therefore we are happy to accept your invitation. We will be delighted to come to the various events which you have outlined in your letter. They sound exciting and interesting.

If there is any additional information we need, or any tickets which are required, I shall be happy to hear from you again. Meanwhile, until we see you, please accept my best wishes for your good health.

Just to say how happy I was that you were at the opening of the Museum. I am only sorry I saw so little of you.

The real problems of the Museum only start now without the glamour that was connected with the opening. Please expect me to ask your advice and help on some of these problems.

All the very best.

(Translated from Yiddish letter)

3/3/65

Dear Friend, Dr. Herbert Friedman, and your dear wife -- may you be well!

A few months ago I happened to visit Chayim Vinitzky and he told me that he is traveling to Europe to see you. I just couldn't manage then, standing on one foot, to write you a few words. Writing is a God-given thing, not always can one say, especially in brief, what the heart dictates. This only great poets can do in their most fortunate moments. But I had with me a small gift, which I had made for my daughter, and I sent it for the dear young woman (or wife?), who had greeted me with a flow of warmth when I came to the King David Hotel -- I still feel the warmth of this meeting to this day. The gift itself is of no real value, but I knitted it with deep affection for the one who would wear it and wove into it all motherly blessings. And this I sent instead of a letter.

Chayim Vinitzky said that you will be in Israel in the spring. Don't forget, I ask of you, to please visit Lachish. Today you have here many good friends, besides me, whom you know from my book, and Lachish is planning a celebration of its 10th anniversary. About my Spanish book, there was a big article by Yakov Glantz in "Der Veg" of January 23, 1965. To this day I get many letters from readers, not only from Jews. Only a week ago I unexpectedly received a letter from Dr. Israel Goldstein, whom I happened not to have sent a book. But you, dear Dr. Friedman, have been the true godfather of my simple book. And like a godfather who blesses "Lemaasim tovim" (for good deeds), I hope that the book will arouse good sentiments and concurrence with the great historic event, the rebirth of Israel.

We are approaching great holidays: Purim and Pesach. I wish that you spend them in peace, and hope to see you both with us. A hearty greeting from my husband.

With deep respect,

Rivke Guber

Lachish, Israel

Dear friend, Mrs. Guber:

I cannot tell you how happy I was to receive your sweet and wonderful letter. It has a warmth which comes from a great heart, which you possess as a wonderful mother in Israel.

The gift which you knitted was given to me by Chaim Vinitsky when I saw him in London. My wife is overkkelmed with the sentiment and the only reason that she has not written to you herself to thank you for your great kindness is because she has been very busy with our baby and travelling with me.

This is the high season of the campaign and I have been working very hard night and day. We must all work harder now that Israel is faced with major difficulties. I am happy to say that the campaign is going better this year and I think we will raise more money for the absorption of immigrants. I know how dear this cause is to your heart.

At the moment I am planning to be in Israel from May 4 - 12. I hope during these days that I will be able to come to visit you in Lachish. I would love to see you again. If it is not possible on that trip, then I am sure it will be possible in the summer when I hope to be in Israel during most of July.

For the meanwhile, until we meet again, I send you my deepest thanks for the gifts to my wife and my congratulations on the success of your book.

Looking forward to seeing you again, I am, with kindest thoughts,

Herbert A. Friedman

Dear Herb:

Just a note to let you know that I thought the TV Broadcast on this morning's program "The Way To Go," was excellent. I don't recall

• Any U. J. A. film that ever gave a more concise yet detailed picture of U. J. A. In one short half hour it covered every important phase of our work.

• I would strongly urge, that if copies of this film

• Could be made, it could serve  
as a very useful tool for  
the fieldman in assisting them  
to organize their campaigns.  
It might even be useful,  
in the smaller communities,  
for fund raising.

Congratulations on a  
fine job well done.

Sincerely,  
Leon

Dear Herb.

This morning my wife and I watched your appearance on the program "Way to go." I want you to know how much we enjoyed it.

In my opinion your postcard was excellent and your delivery perfect. You were eloquent without sentimentality, dignified without pomposity and informative without pontification. You gave the impression of dedication and sincerity. Above all, the dialogue sounded <sup>no impromptu</sup> uncontrived and spontaneous.

My wife, by a different aspect she maintains that you are the handsomest and most attractive man she has seen in public life.

All in all it was a fine presentation. I wish there were more of the same.

Sincerely,  
Sholem

Dear Herb,

My hasty return to Washington occasioned a lot of unfinished business in New York. Of special significance to me was the tentative appointment to see you. Military panic left me no time even to make a last minute call. However, since your calendar is undoubtedly all too crowded, perhaps you were relieved not to have to squeeze in a call or visit from me.

Herb, I am retiring this September and have decided against returning to the rabbinate. You know my experience with displaced persons, my work in the Adviser's Office, and my interest in practical problems which people face. All that happened a long time ago: before my administrative assignments, my writings which became books and pamphlets, my numerous speaking engagements and just contacts with Jews and non-Jews in all stations. I could do a good job for almost any Jewish agency.

You have many contacts with Jewish organizations. Your recommendation would count heavily with them. I, on the other hand, have really been out of touch with the figures who make important decisions in the Jewish community. If you could be helpful, you will be glad you did.

Best wishes for a happy Passover.

THE RABBI'S STUDY

Dear Herb:

Thanks for your note of the 4th and the editorial which I have passed on to Herman Cohn.

He hasn't made a final decision yet as to where to send the \$5,000. check. The ORT School at Natanya interests him but agriculture is only one phase of its diverse activities. He would prefer a school that concentrates exclusively on agriculture. Some of the Israeli people have been recommending the Ruppel Institute at Natanya. Do you know much about it? If you go by could you have them send me a catalogue or any other printed matter.

Your description of The Caesarea sounds idyllic. I must try it some day myself for it's just exactly what I would like.

We're stuck in town until the first of August and then go to the Cape for five weeks. We would love to have you and Francine visit us if it's at all possible.

Our kids are scattered. Alice is playing the lead in summer musicals in the Poconos. Steve is winding up at the Sorbonne, and will return in September to go to UCLA where I am told they are doing the most interesting brain research work in the country. Jeremy is at CERN in Geneva but is also doing a lot of mountain climbing. He just wrote that he spent five days on top of Mount Blanc, which was one of the most wonderful experiences of his life.

All the best.

Dear Phil:

In answer to your several letters, let me take up the items seriatim:

(1) Herman Cohn - I really have no idea what to suggest for his \$5000. I do not know anything about the Ruppin Institute. Perhaps you should write to Michael Arnon, the new Consul General in New York, who was formerly Ambassador to Ghana and who might have some suggestion for Mr. Cohn.

(2) I received the article you wrote about Sharatt and it was very interesting, warm and sentimental. I want you to know that we are going to build a tremendous school in his name, high on a hill in Upper Nazareth. I selected that location because, somehow, he seemed to have an interest in and understanding for the Arab mentality as well as the Christian. While the school at Nazareth will obviously be primarily for Jewish children, nevertheless, as the years go on, it is equally obvious that Arab and Christian children from the lower town will find their way to the high school in the upper town. I am not taking the time to develop this theme, and as I have stated it, it may sound rather crude, but I think you have a glimmering of what I am driving at. We have already found three people who are willing to contribute \$100,000 each in Sharett's memory because of the feeling they had for him.

I know how you felt about him, and if there is anyone you can think of who should be approached for this project, I would love to hear about it now. We are working on this currently and would like to complete it fast.

5 August 1965

(3) With regard to the stones, I had a long talk with Avraham Biran, the head of the Department of Antiquities in Israel, without whose permission nothing from Caesarea can be touched. He is very reluctant to grant permission for a Roman column or capital to leave the country. I pressed hard and he is thinking about it. Let's see what happens.

With regard to large stones from Jerusalem or the Dead Sea or King Solomon's Mines, there is really no problem. It is simply a technical one of finding a company with heavy equipment to handle packing and shipping. I am having some inquiries made as to what this might cost and as soon as I hear, I will let you know. I am making my inquiries on the basis of pieces 2 metres square, wide and high. Were you thinking of something larger than this?

(4) The article for the Zeitschrift is almost finished. Frankly, it was rough going. I had to extract myself from current preoccupations and bring back to mind the fabulous years of 1946-47. But, once I started the article, I enjoyed writing it. The more so, because the time we spent in Europe were the best years of our lives. The article gave me an opportunity to say coherently what I think of you personally and of the role you played in the unique period of our history.

As ever,

Dear Herb:

Thanks very much for your letter of the 6th and all the interesting and helpful items contained in it. Let me respond seriatim:

1. Herman Cohn has received a variety of suggestions regarding his \$5000 contribution. He has decided to wait until he gets to Israel about this specific contribution. Also he will make up his mind there what he can and should do in the larger area. One interesting connection has developed. It appears that the Director General of the Department of Agriculture in Israel is a chap who worked on Herman's farm when he was doing some studying at Cornell. Herman got to know him quite well and liked him very much, and has heard from him. He will undoubtedly be able to exercise considerable influence with him when the Cohns are in Israel. I will let you know more about their plans when I get back after Labor Day. He has something of the old American Jewish Committee approach and doesn't want to be propogandized, but I think should be exposed to some of the things your people can show him. They are interested in seeing a ship bring in immigrants. I will be in touch with you about details in early September.
2. I just wouldn't know whom to approach for the large contribution in memory of Moshe. The only two people who might have been willing and able are dead. I refer to Ike Gordon and Fred Forman. Incidentally the next time I see you I'll tell you about my conversation with Maury Forman. About the UJA pledge I am still not without hope that some kind of token arrangement can be made once the row over the estate gets settled.

THE RABBI'S STUDY

I could try to raise some small sums in memory of Sharett. At this time I'm responding to Milton Krensky's pressures to raise Ten Thousand Dollars toward the Stephen Wise Chair at the University. I raised nearly half of it before I left and hope to work out the balance on my return. If when I am finished with the Wise appeal, you'd like me to raise some modest sums for a memorial to Sharett I'll do my best.

3. Thanks very much for what you have done with regard to the stones. There is a fortunate coincidence. Biran will be coming to our Temple on Wednesday, November 17th, for a talk for our Adult Institute under the joint sponsorship of our Temple and B'nai B'rith. I am writing to him to tell him how pleased I am that he is coming and also how grateful I am for giving consideration to our request.

I am looking forward to word about the items from Jerusalem or the Dead Sea or King Solomon's mines. I should think that something two metres square, wide and high would be Ok, but we are flexible on this.

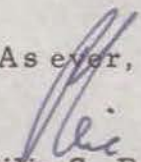

4. Thanks too for all that you have done with the article. I am eagerly looking forward to seeing it.

We are at the Cape until after Labor Day. I renew the invitation to visit us.

Kenen has set up some important meeting for noon on Monday, August 30th. If you will be in the city perhaps we can spend an hour together in the late morning or mid-afternoon.

All the best.

As ever,

The Vice-President  
United States Senate  
Washington, D. C.

My dear Mr. Vice-President:

This is an unusual sort of letter for you to receive from me, but I write it with the thought that it might be of some help to the President.

There is under consideration at the moment the appointment of a new Surgeon General of the United States. One of the men recommended for this appointment is Dr. Neil Solomon. I am enclosing his photograph and curriculum vitae.

He has received all of the usual recommendations, by the Medical Research Council, the Dean of the Harvard Medical School, and all of the other scientific people. In addition, Senator Tydings took him to see John Macy.

I am writing, not as an expert in the field of medicine, but in the field of personnel selection. This man seems to me to represent exactly what the President is looking for. He is young, vigorous, idealistic, with a great belief in the same kind of social goals which you and the President share. In other words, all other technical qualities being equal, it would seem to me that this man would reflect the image of the President as he would want to project it to the country.

I thought I would give this to you and let you do with it whatever is correct in your judgment.

Sincerely yours,

Dear Jacob:

The President Johnson has before him right now, under active consideration, the appointment of a Surgeon General for the United States. I am enclosing the curriculum vitae and picture of one of the nominees for the position.

Dr. Solomon has been recommended by the Medical Research Council, by the Dean of the Harvard Medical School, and by all the other scientific bodies which have passed upon his technical credentials.

Senator Tydings has met him and was very impressed with him, to the extent that he has arranged an appointment with Mr. John Macy, the head of the Civil Service Commission who makes personnel recommendations to the President.

The President is looking for someone who is young, imaginative and capable of projecting a certain image of strength. Dr. Solomon fits all of the qualifications.

I am giving you this background, Jacob, in the hope that you will use your own judgment as to how to press the candidacy of this man. If you decide that there is nothing you can do, I will certainly understand. On the other hand, if you have an opportunity to put a word in at whatever level you think it would make a difference, with Senator Tydings or with the President himself, I would certainly appreciate it.

Wishing you and your family all the best for the New Year, I am,

Sincerely yours,

COMMITTEE ON THE JUDICIARY

September 9, 1965

The President  
The White House  
Washington, D.C.

Dear Mr. President:

We, the members of the Maryland Congressional Delegation, respectfully wish to make you aware of our very high regard for Dr. Neil Solomon, who is under consideration for the position of Surgeon General of the United States to replace Dr. Luther Terry.

This dynamic and energetic young man, at the age of 33, holds four degrees including A.B., M.D., M.S. and Ph.D, and has consistently graduated with honors. Dr. Solomon is presently an Associate Professor of Physiology at the University of Maryland School of Medicine. He has worked extensively in his field and has served as Scientific Consultant to the National Institutes of Health, Department of Gerontology; as Assistant in Medicine at Johns Hopkins University; and as Assistant Chief of Medicine at Baltimore City Hospitals.

Dr. Solomon was enrolled in the combined M.D.-Advanced Basic Science Program at Western Reserve University, was a trainee in Physiology at the Public Health Service, and was a Pre-Doctoral Fellow with the Arthritis and Rheumatism Foundation. He has served as Chairman on many committees in the fields of Physiology and Biochemistry, and was the originator, chairman and administrator of a program to interest and train high school students in basic sciences.

Dr. Solomon is a recipient of numerous honors and awards, including the Arthritis and Rheumatism Foundation Award; Physiology Award, Western Reserve University; American Men of Science; Lederle Award, American Geriatric Society; The Johns Hopkins Hospital Schwentker Award; The American Heart Association Fellow Award, and others. He has been invited to lecture on many occasions, both in the United States and Europe, and has a long list of publications to his credit. A member of 13 professional societies, Dr. Solomon is licensed to practice medicine in the States of Maryland and Ohio, and is a Diplomate of the National Boards of Medical Examiners.

Dr. Solomon is 33 years old, is married and the father of three children. He presently resides in Baltimore City.

We would be most grateful for every consideration that can be given Dr. Solomon. We wholeheartedly believe that his extensive education and outstanding background would be considerable assets to the position of Surgeon General of the United States and would reflect great credit upon your Administration.

Dear Herb:

I am enclosing herewith four sets of the curriculum vitae and four pictures of Dr. Neil Solomon, my nephew. I will now give you the dope. He has been recommended by the Medical Research Council. A specific letter of recommendation was written by a Dr. Julius Krevans and supported by a letter from the Dean of the Harvard Medical School, Robert Ebert. Senator Tydings and Senator Brewster are taking him to see John Macey. They have suggested that Blaustein should call the President. Also, that Blaustein should call Tydings and Brewster in support of this. I don't know Blaustein well enough but I'm sure you do and I'd appreciate your doing this for me. I'll call Joe Meyerhoff and Chuck Hoffberger.

Secondly, it is my understanding that the entire Maryland Delegation is supporting this application and that Macey has a copy of a letter of recommendation and also has the curriculum vitae, which you now have in your possession.

I would also appreciate your getting this to Humphrey and get a strong push there. Actually, if you look at his background and his qualifications, he certainly is what the President claims he is looking for. It is my understanding at this point that four people are being considered and it now is a question of whether we can exert gentle pressure. I was told that if Abe Fortas would say something to the President this would be of great significance. Actually, I think if the President took the time and examined himself the various qualifications

Rabbi Herbert A. Friedman  
September 9, 1965

objectively he might appoint Neil. However, I'm sure he's is much too busy and has to rely on others. Therefore, any direct recommendation to him would be most persuasive. In any event, this boy is married to my sister's daughter and therefore naturally I am most interested and would be deeply appreciative of any help I could get from you.

Sincerely,

  
Edward Ginsberg

Dear Herb:

You can see from the attached copy of a letter dated October 1 which I received from Gunnar Josephson of Stockholm, what effect your talk with me in Copenhagen had on other people.

I am not happy about your calling off the Norwegian idea and I am a bit embarrassed now to also tell the Swedes to forget about what I told them at the time.

Maybe you want to change your mind?

All the best.

Sincerely,

Charles H. Jordan

Dear Charles Jordan,

All my best wishes for a happy new year. I am sure it will be full of problems for you and for Joint, but I hope it will also be a year of pleasure and satisfaction and success for your work.

You remember the visit we made together to Professor Folke Lindberg in Stockholm asking him to find one of his students willing to write about the Swedish help work for nazi victims.

To day I got a telephone call from Mrs Ann Louise Zetterberg in Stockholm. She is the wife of Pastor Primarius Zetterberg in Stockholm, not young but now making advanced studies in history at the University. She was advised to contact me by a colleague of professor Lindberg, professor Westin, with whom she studies and who had been asked by Lindberg to recommend a suitable person.

Her husband has a high position in the Swedish clergy, both are very interested in jewish matters. I have met them at the Israel Embassy. She will write a thesis for what we call the licentiat ( M.A. ), and she was extremely interested in the subject of Swedish humanitarian work during the nazi time. I think she has good qualifications for this task.

She asked me about more details. I don't remember however all what we said to professor Lindberg. I would therefor appreciate very much to get some informations which I could forward to her.

What is the subject of the publication ? The Swedish humanitarian help to Nazi victims ? The Bernadotte action, the Unrra action, the Norwegian and Danish refugees, the Hungarians ? Should it be only the jewish victims or should it be - which

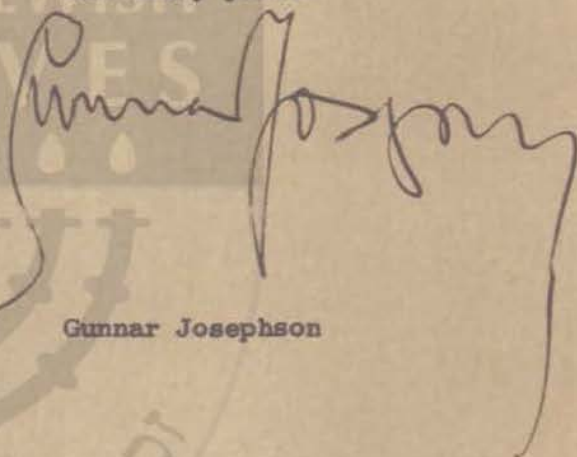

I would think the best - the general help given by Sweden, in which the Jewish question is a part. The Swedish immigration policy ?

Where should the book be published ? What would be the salary to the author ?  
When must it be ready ?

I am sorry to trouble you with all these questions, but I want of course to give Mrs. Zetterberg all informations possible. She is now going to Israel with a group of theological people and will be back in the middle of October. I have asked her to contact Mrs Lena Yahil in Jerusalem.

All my best regards

Cordially yours

Gunnar Josephson

Dear Charlie:

I have read and re-read your letter of 7 October concerning Norway and Sweden, and must confess a certain amount of confusion.

When we spoke in Copenhagen, and you suggested that perhaps you would look into the question of whether the Norwegians and the Swedes had not also done something outstanding for Jewish survival, I had no idea that you were talking about entering into any full scale research projects. I thought you simply meant that you would investigate, in quite personal terms, by having conversations with various people, what the background story might be.

As for full scale research involving a book, a salary, and all the subsequent problems of publishing and selling, I had nothing of the sort in mind and I think this has been carried far beyond our simple Copenhagen conversation.

Isn't fundamental research of this sort more in the interests of the World Jewish Congress or the American Jewish Committee? I certainly do not want to embarrass you, but it does seem to me that this is not a matter on which I can spend UJA money.

We can talk about this some more in person when we next see each other.

All the best,

Dear Haim:

I have delayed answering your letter of 29 September because I have been trying to find out what letter of mine dated 16 September you are referring to. I do not recall writing and we cannot seem to find anything in our files. So there seems to be some mystery here which remains unresolved.

I am sorry that you have a sour taste in your mouth. That should not exist between friends.

I thought I had answered you on the subject of Yad Mordecai. If I did not, let me say that I do not know how I can be of help in this matter. You spoke about the need for money for a museum. UJA funds cannot be made available for this purpose, and I personally am in no position to solicit individuals. I am constantly soliciting for the UJA itself and for our newly established Israel Education Fund.

Of course you know I would want to be helpful in any way I can, but there is no way in which I can assume the prime responsibility.

With regard to the mix up of evenings, I was not under the impression that we had a date. Please accept my sincere apologies for any inconvenience.

I hope the sour taste goes away.

Sincerely,

HAF:gb

Dear Herb,

I received your letter of 16 September 65 on the 29 September 65. I shall try to comply but I do have a sour taste in my mouth which I think you should know.

- a. My request on the subject of Yad Mordechai is still unanswered.
- b. When we last met you suggested a Thursday when you would call on us. A cancellation would have given me another evening for my own purposes.

I do not think that the state of affairs are such that Yad Mordechai should be ignored like this or may be that they are in such a state, so please find the time to answer.

Sincerely yours,

Dear Sir,

We have just received your letter of November 15th addressed to Mr. Roger Boisramé in Paris and which he forwarded to us.

We were very happy to learn that you were able to change your travel plans in such a manner as to include the MONT D'ARBOIS and we are very much looking forward to receiving you and your wife for your short stay from December 18th to the 24th.

In the meantime, we remain,

Dear Mr. Varadi:

Thank you very much for your letter of the 18th confirming our stay with you from December 18th to the 24th.

Would you be good enough to make a reservation for my brother-in-law, Mr. Norman Bensley, for the same period. Perhaps you could give us adjoining rooms or a suite with two bedrooms.

I would appreciate a confirmation of Mr. Bensley's reservation.

Sincerely yours,

Dear Mr. Friedman,

Thank you very much for your kind letter of November 26th in which you request us to reserve additional accomodation for your brother-in-law, Mr. NORMAN BENSLEY.

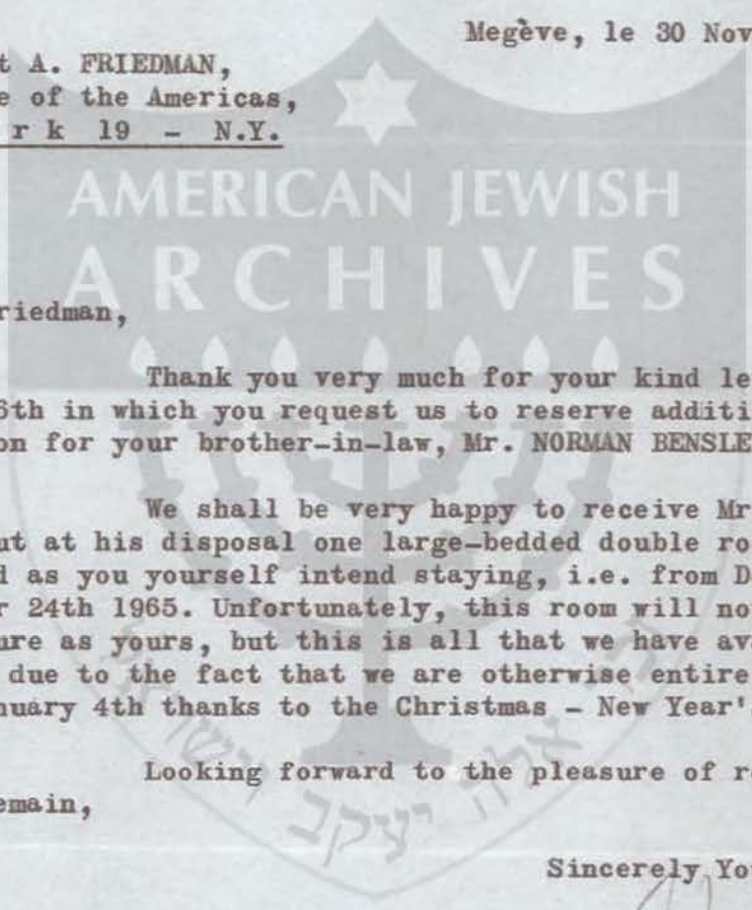

We shall be very happy to receive Mr. Bensley and will put at his disposal one large-bedded double room for the same period as you yourself intend staying, i.e. from December 18th to December 24th 1965. Unfortunately, this room will not have the same exposure as yours, but this is all that we have available at the moment due to the fact that we are otherwise entirely booked through January 4th thanks to the Christmas - New Year's Eve period.

Looking forward to the pleasure of receiving you here, we remain,

Dear Herb:

Upon my return from Israel I found on my desk the slides of Kiryat Menachem. I am deeply grateful for your interest in my monument.

When in Israel I had the opportunity to examine, more than once, my piece of real estate. It is growing by leaps and bounds. It is even more beautiful than Kiryat Hayovel. I want you to know that the population has reached the 20,000 mark - the school population exceeded 2,200. So, as you see, I am a proud landlord.

With all good wishes to the family and you,

Dear Hi:

I saw "The Price of Silence" last night and I must say it was a first class job. Congratulations, and I hope it is distributed very widely.

The format was good; the concept of prosecution and defense gave it the appearance of fairness; the use of the Protestant Bishop was excellent; and you had a good cast of important personalities. The message really got across.

Dear Herb:

Thanks for sending the note and the Jewish Chronicle News Service clipping. It was a most unfortunate item and will be a source of embarrassment to Balfour who is not a candidate. We tried to trace the source and the local correspondent knew nothing about it. Worse yet, it was also printed in the Chronicle itself. Someone was guilty of a painful bit of mischief.

I leave for the UAHC Executive Meeting in Miami next week and return the week-end of the B'nai B'rith Board of Governors meeting when I'll be made "honest" and official and then we'll get together, two happy pariahs or noble extenders of the Reform Movement's influence and status. Which?

With warmest regards, I am

Dear Mrs. Guber,

Your publisher was good enough to send me a copy of your book,  
"Signal Fires of Lachish".

I have read it with absorbing interest. The stories themselves, together with your own noble involvement and your interpretation of your experiences, form a documentary, packed with the human drama of what has gone into the making of Israel in our time. You have given your readers an insight into the problems and achievements of the processes of integration and adjustment which make our society in the Jewish National Home so difficult and so promising. Even those of us who have been dealing, as their daily fare, with immigration and absorption problems, can find new instruction and inspiration in the pages of "Signal Fires of Lachish".

More power to your work and to your pen!

Sincerely,

  
Dr. Israel Goldstein

February 24, 1965.

Dear Herb,

When you told us at the last meeting of the publicity group that you were considering a full hour tour of Israel by an important star under the direction of Carl Foreman, I was concerned because it sounded as if it was already a fait accompli. My concern is with several aspects of such a tv show - most importantly with the fact that it would hardly be a new show or one which had not already been played and played by the stations over the country. I list here several such shows which were made, with better or worse production and direction: A half hour by Bonds for Israel starring Edw. G. Robinson and written and directed by Leon Uris (at the time "Exodus" was a number one best seller).

A half hour starring Frank Sinatra touring Israel under the sponsorship of the Histadruth - Sinatra sang and narrated in this film. The production was a Hollywood unit he carried with him for just such a job.

An hour titled "THE PEOPLE OF THE BOOK" produced under the joint sponsorship of NBC and the Jewish Theological ~~Seminaty~~. I saw this film and the one which follows and it was excellent - Don't forget that it was NBC that did the film on the Kremlin and on the Louvre .. They do these things well.

A second hour to follow the previous one mentioned: "THE LAND OF THE BOOK". Together these two hours were the most comprehensive and entertaining hours about Israel to date. What was important, because NBC made them, was that they got network exposure - something we can never hope for. The networks will not take an outside package for national showing - it can only get exposure on a local basis.

The Jewish National Fund has made some seven or eight films, in color, which are splendid tours of different areas - if these were strung together they'd make as good an hour as anything someone else might attempt.

HIMAN BROWN

2.

221 WEST 26th STREET - NEW YORK 1, N. Y. - OREGON 5-2211

The Israel Tourist Bureau has also made several films of high quality showing Israel, the people and the institutions.

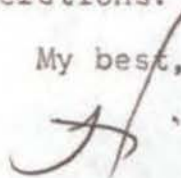

I realize that what you mentioned might be different because of the star's personality and because of Carl Foreman. I want you to know that ~~over~~ the years I have never had any luck with so-called name writers or producers because they come to their Jewishness as "Johnny-come-latelys" .. what will seem fresh and new to a man like Foreman will be old hat to those of us who have been at since 1940. I also seriously doubt that a man like Foreman can produce anything under \$100,000 .. This is not only out of the question in my world but hardly in the UJA budget (this I will submit to the committee). Such an hour should come in considerably under \$50,000 and even then I feel it is an exorbitant sum to spend for just a kind of travelogue.

Regardless of how you felt about "Memo To Parents" my experience has proven that only by relating to people can we achieve any solid identification with the audiences we are trying to move. I have done my own checking on the effect of "Memo" and I know that it made a tremendous impact on the lay audiences. The people to whom UJA gives help, hope and money are the ones we should direct our film efforts to - with stars or without stars.

Remember that Sophia Loren's tour of Rome or Liz Taylor's tour of London were very special - I need not go into the use of a single city versus the use of a country - or the fact that both were born in the areas they described - or the costs involved.

I feel that the TV effort needs a great deal more thought - which, hopefully, we will give it at our committee deliberations.

My best,

1st March 1965

Mr. Sam Rose  
1161 Pontiac Street

Dear Sam:

It was very good seeing you the other day. I always enjoy watching you grow stronger. Tell Marion that dinner was delicious, and served beautifully, as usual.

I am sending you, under separate cover, three items - first of all, the catalog of the Israel art exhibit prepared by the Museum of Modern Art. This was really the first major exhibit of top importance. I have some paintings here in the office, done by many of the same artists. If you are interested in purchasing anything by any of these men, I would be happy to be of assistance.

The second item that I am sending is a series of brochures on our high school in Israel program. I know you have time to read it carefully, and I hope you do. It is really fascinating material.

The third item is a copy of a long letter I write periodically to the major contributors of the country. It sort of brings them up-to-date on the latest developments. I thought you might enjoy seeing a copy of it.

I cannot tell you how pleased we were at the marvelous treatment we received from Inspector J. J. Tuzzola. I wish to compliment him for his behavior, and to thank you again for this kind act on your part.

It was all the more appreciated because of the fact that my wife is pregnant, and the very comfortable manner in which we were processed after a long flight home added considerably to her well-being.

Dear Herb:

Now I know why you left the rabbinate.

I have before me an exciting brochure about the fifty million dollar life insurance loan to the Jewish Agency.

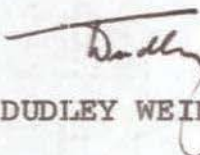

Take your hands off that check! Es vett dir gornisht helfen. On the other hand, come to think of it, mere proximity to such resources can have its satisfactions.

Are you aware that ten years have elapsed since your departure from Milwaukee and my arrival? Unbelievable!

The boys in these parts are planning a simchah this weekend. There will be a special service at which Lou Silberman, my HUC room-mate will preach and will probably tell tales out of school. And then on Sunday night there is to be a gala banquet at the Schroeder and huge amounts of money will be wasted in order to provide a public opportunity for some people to exaggerate my alleged virtues and to gloss over my very palpable faults. Why do they do such things? I suppose that in contemporary American Jewish life, the mere survival of a rabbi for a decade is an occasion for celebration.

Anyway, send me a corner of one of those checks.  
And a million good wishes to you.

Faithfully,

Dear Mr. Elovic:

It is my pleasure to write to you now to confirm the arrangements we discussed when we last met, regarding our next visit.

Mrs. Friedman, our 15 month old son, David, his nurse, Miss Jennifer Wheeler, and I will be arriving at the hotel on Thursday, 24 June. We shall be leaving on Wednesday, 28 July. As we discussed, you will make available one apartment plus an adjoining bedroom (a combination such as Room 268-269, or something identical on a different floor), on a demi-pension basis for \$40 per day, which includes service charge. There is already a refrigerator in the apartment and you said you would be happy to put in a small electric burner for the sake of the baby.

We are looking forward very much to this visit because we love the hotel and its facilities. By coincidence, I will be seeing Mr. Roger Sonnabend this evening at a reception at the Plaza Hotel in New York and I plan to tell him of our forthcoming stay in Caesarea.

Would you please confirm these arrangements to me by return mail.

Dear Nelson:

It has come to my attention that there were some proposals under way to change the name of the school by eliminating the JIR portion. I have heard about this indirectly, not officially, and therefore have no way of knowing whether this rumor is accurate. If it is not, I should be delighted to be so informed.

If there is any substance to it, however, I would like you to know that there are many of us who would be very disturbed at such an act. You must be aware of the fact that this is still a very sensitive matter, involving memory, sentiment, and actual promises made. Names carry within themselves facts of history. I, for one, would not want the historic fact of the existence of the JIR to be obliterated by the elimination of its name.

It is not my purpose in this letter to adduce all of the arguments I have against the suggestion. Suffice it to say that I felt impelled to put my opinions on record with you. Should there be an opportunity for lengthier dialogue between us, I would be pleased to go into more detail.

In friendship,

Dear Dave:

Thank you for the clippings from the Kansas City Star regarding the Eddie Jacobson episode.

It is one of those fascinating simplified versions of history which do, as you say, leave out the names of many people who also played a role. When history is written in full detail it sometimes has a tendency to be boring to the ordinary reader. When it is written as this was, it is more sensational and less accurate.

What Eddie Jacobson did was great and I had the pleasure of knowing him quite well and visiting with him often. But I can understand what you mean when you say that some of your people are upset by the sins of omission. You must be statesmanlike enough to mollify them.

We have enjoyed looking at the coins and now I just want to ask one thing. I forgot whether we agreed that you were going to send us albums containing sufficient pages (with small openings - not large openings for medals) to contain the whole coin collection. If you are going to send them to us, then I will not approach the local office here in New York.

On the other hand, if it is easier to get them here, please let me know and I will obtain them locally.

Dear Bertha:

I have just returned from a trip to the West Coast to find your two letters - one to the office and one to the house.

First of all, let me congratulate you most warmly on the birth of your second grandson. I can imagine how proud you must feel and I hope he brings you great joy.

1. The Leah Nikel has arrived and is in customs and we are arranging to get it out. I certainly do understand why you sent it C.O.D. and there is no problem on that score. We will pay the charges.

I shall keep a copy of the agreement between the Rina Gallery and Mr. Leeman in which it is stated that the \$300 will be paid in November in New York.

If you wish, Bertha, it can be paid now. In answer to your question as to whether the painting is really for me or the UJA, it is for me personally, and is being given to me as a present by the members of my staff. Quite unbeknownst to me, they arranged a party to celebrate my 10th anniversary with the UJA and have raised a sum of money amongst themselves to give me a present. I think it is very touching and very sentimental. They have \$200. I shall pay the other \$100. So the money is available now, if you want a check made out to his order. Please give me his exact name and address and we can make out the check to him and mail it to him directly, or we can send it to you. Whatever you wish. Or would you want us to hold it until November. I would appreciate hearing about this as soon as possible, so that I can give the necessary instructions before I leave for Israel in 2 weeks.

2. As for the Ben Shaul oil on paper, I have not had a chance to discuss it with Avalon and will not have time to do so. Therefore, I would say you should take off the red tag and sell it if you can.
3. As for the Zaritsky water color, please hold it for the UJA, as agreed. We will include it in next year's purchase list.
4. You make reference to "a beautiful small Ben Shaul for \$250." I do not recall having seen it; you say that I can trust you and I am sure I can, but I would rather see it before making a decision. So, when we come to Israel in a couple of weeks, I will have a chance to look at it and will decide then.

With all good wishes, and looking forward to seeing you, I am,

Dear Herb:

I have been asked to be the Israel Bond Chairman to follow Victor Carter. The deal is that Joe Mitchell and I will each take the chairmanship for one year, and I have the choice of taking it this year or next. If I take it, I would take it for the coming year.

I discussed the matter with Ernie, from the standpoint of how it would affect my relationship to the UJA, and he thought it would be to our benefit. I feel I should not take on so important an assignment without getting your reaction. Let me hear from you.

With personal regards.

Sincerely

Dear Phil:

While at Princeton attending the graduation of my brother-in-law, Norman Bensley, I saw Johnny and took the enclosed pictures. I am sure you took 500 of your own, but in case you didn't, I know you will enjoy having these.

I am leaving for Israel tomorrow and will be at the Caesarea Hotel until the end of July. If you are going over again, please drop in for golf or a swim or a shmoos.

All the best,

Dear Joe:

I have your letter regarding the Israel Bond chairmanship. I think it is an honor and I do agree with the viewpoint that your taking it would be to the benefit of the UJA. It will project you throughout the community with an even larger image. You must simply make certain that in all biographical releases about you, your UJA connection and titles are spelled out very prominently.

My only feeling in the matter is that if you have a choice, let Mitchell take it first, and you take it the year after. My reason for saying that is that if you follow Mitchell, you would not lay yourself open to the accusation of being only a red hot, pro-Israel zealot (which nobody would accuse Mitchell of being) and therefore if you took it after him, you would simply be following in the line of good community leadership responsibility.

On the other hand, perhaps that is not too important, because Carter is also an all-around community leader.

As you can see, I do not have passionately strong feelings one way or the other. I think it would be good for the UJA if you took it and while it might be better if you took it a year from now, perhaps it is just as well for you to make any deal with Mitchell that you and he are both comfortable with.

I am leaving for Caesarea tomorrow and if you should pop over during the summer, I'll find you a tennis partner.

Dear Herb,

It was kind of you to take time out to write a personal letter in the midst of your preoccupations.

Aubrey and I have talked over the question of my visiting America for the U.J.A. very carefully and we both feel that it is not possible during the coming year.

I personally am very sorry that I do not have the opportunity to renew contact with American Jewry but hope that circumstances will make it possible at some future date.

I very much enjoyed our talk.

Life continues to be very intense on our political scene. (X)

Dear Herbert:

AMERICAN JEWISH

I am inviting a small group of friends to join me in the Conference Room of the American Committee for the Weizmann Institute of Science, 515 Park Avenue (7th Floor), New York, on Tuesday, September 14th, at 5:00 P.M. for an audition of a new record which will be released by Columbia Records within the next few weeks. I feel very keenly that this record is an important contribution to Weizmanniana, and moreover deals dramatically with the events leading to the establishment of the State of Israel. I know that you, because of your interest in Israel, will find this unique production of unusual significance.

I would appreciate it if you will let me know that I can expect you. Please call my secretary at Plaza 2-1300.

With best wishes and kindest personal regards,

Very cordially yours,

To dear Zvi Friedman, to begin my letter I am inquiring first of all about your health and that of your family. You have no idea how sorry I am about the delay of this letter. It is hard for me to say why the letter was delayed, there were various reasons, also I took sick two weeks after the start of the school year. And now, thank God, I am completely well. I waited all this time to send you the/wedding pictures of my sister together with the letter. But they are not yet developed, and therefore have to send this letter without the pictures. However, with the next letter, with God's help, I will send you the pictures of my family, the bride and groom.

I received a letter from the school that at the end of the school term I shall have to take more final tests in my occupations (lathe operator), including algebra, mathematics, draftsmanship, technology, language, and practical work.

In regard to Daniel, if he will not begin studying at the university, what he will do now, I have not heard from him anything further. Although I understand that he is busy, but ~~in spite of everything~~ nevertheless please tell him what I said.

In concluding my letter, I inquire after your health, that of your wife and of your little son, and of Daniel's health. Forgive the delay of this letter.

I wish you g Shana Tova.

(Note from Minna: Please note cute way the writer addressed what is apparently meant to be "Zvi" on the envelope -- from his phonetic viewpoint.)

What's the matter - don't you like New York? Roma di Notte is waiting for you.

Seriously speaking, what's new with your Dad and the library? You will recall that you suggested to me that he should go over to Israel, and the best way to get him to go was to have an invitation from the Mayor of Beersheba. That letter was sent to him on July 14, 1965.

Does he plan to make the trip? Is the project still alive in his Mind? I would love to hear from you.

Fondest good wishes for the New Year to yourself and your lovely family.

Dear Roger:

I am enclosing the photograph and the curriculum vitae of a young lady who would like to go to work for the Interior Design Department of the Hotel Corporation of America.

As you can see, she has been operating up to now as a free lance, but would like to make a permanent connection, on a steady basis, even though the net result of a year's earnings might be less.

The reason I am asked to bring this to your attention is that she is the cousin of my wife's, yet I want you not to feel any sense of awkwardness whatsoever. If she qualifies for employment on your staff, that would be fine. If she doesn't, then you must feel perfectly free to make any decision you wish. All that I would appreciate would be an opportunity for her to be interviewed by whoever runs that department.

With all good wishes, I am,

We received the notice of the opening of the exposition of your wife's paintings. I just wish I would be in Paris in order to enjoy the cocktail, the vernissage and the beautiful Paris autumn weather. None of that is possible, however, because we are waiting momentarily for the birth of another baby.

Therefore, the best I can do is offer you and your wife good luck and congratulations, with best wishes for a great success. It must be quite thrilling and while I read carefully the explanation of the meaning of pluralisme, I would still hope some day to see an actual picture so that I can understand the meaning.

All good wishes.

Dear Mrs. Blaustein:

To the many well-merited tributes which will be paid to Avis Shulman, I would like to add my own personal word of appreciation and high regard. This is certainly no easy task, for it is difficult to find language adequate enough to describe Mrs. Shulman's role in the cause of Israel and the Jewish life of our country and abroad.

In the galaxy of devoted workers and leaders who have made possible the great achievements of our generation, the name of Avis Shulman looks bright. We, in the United Jewish Appeal, owe her a special debt of gratitude. Throughout the years she has given of herself without stint and without regard to personal convenience. Many were the times when she left her family to carry out UJA missions in various parts of the country. Even when doing so meant great personal sacrifice, Mrs. Shulman never hesitated. She always felt that if she could help save even one Jewish life, nothing else mattered. Her devotion to her fellow Jews and to Israel came first, and she gave of herself to the limit of her strength and ability, cheerfully, willingly and with no reservations.

In addition to her own services as a speaker of outstanding ability and persuasiveness, Mrs. Shulman for a time served as National Chairman of the Speakers' Division of the United Jewish Appeal. In that capacity she manifested a rare talent in enlisting other speakers on behalf of the cause, who have played an effective role on UJA campaigns.

I am sure Avis would agree that it is most fitting to pay a word of tribute to Rabbi Shulman and their daughter, without whose understanding, sympathy and cooperation, she could not possibly have accomplished the tasks to which she set her hand.

Israel, the United Jewish Appeal, and, indeed, every worthwhile Jewish cause will still look to Mrs. Shulman in the years ahead. There is yet so much to be done and we know that she will always be ready and willing to serve. Her multitude of friends wish for her many years of good health and fruitful activity.

Sincerely yours,

Herbert A. Friedman

Dear Jack:

This is the first opportunity I have had to answer your letter of 12 October. Many thanks for all the kind things you said about our son David. We are awaiting momentarily the birth of his brother or sister.

As far as the pages are concerned for the stamp album, I am mailing, under separate cover, many of these pages. I do not know if there is a master plate. I suppose there is, but it is too complicated for me to try to find it. I have had about 50 sheets printed for my next album which will cover me for the next five years.

I am happy to send this to you and hope that you can find a binder into which to fit them. I would not suggest putting first day covers on these sheets because they are much too expensive for that. Use them only for your singles or tabs.

Dear Mr. Boisrame:

It is approximately one and a half years since we met at the Hotel Caesarea in Israel, but my wife and I have been back several times during that period. We saw the Baron just a few months ago at the hotel and spent a lovely evening with him.

In case you do not recall, I am the Director of the United Jewish Appeal in America. When we met we spoke about the possibility of going to Megeve for a short holiday.

You said that if I ever found the time to come, I should let you know and you would make the necessary reservations for me.

My wife and I are very grateful for this kindness and would like to take advantage of it at this time. We will come from London to Geneva on Wednesday afternoon, 15 December and would like to stay until Tuesday morning, 21 December. We shall be arranging our own car transportation, so we will come ourselves from the airport to the Mont de'Arbois. We would appreciate having lovely accommodations, which would give us as much sunshine as possible. My wife is having a baby now and this short holiday is to enable her to have a good rest, fresh air and all of the advantages of your esteemed reputation.

Looking forward to hearing from you at your earliest opportunity, I am,

Dear Herbert:

  
AMERICAN JEWISH

Talk about ancient ruins - what you have dredged up for December - relocating those military dead horses under one roof and in one room which could hardly be large enough to hold their combined egos and then on the program - the establishing of a connection between these ancient and alien herioc futz's and our own Ecclesiastes. The gathering in of Earl Alexander of Carthage for our ingathering represents a major Jewish coup on the level of the ACCO prison break and the Sinai thrust in 56. I look forward to hearing you deliver the tribute to the vision of Eisenhower demonstrated by his superlative judgment and brilliant decision in 1956.

All of which is not to discount or minimize the presence of our own Jewish leaders including Rothschild. Photographs of a man are relevant and tell what a man is all about, then I frankly think that DeRothschild is a pale figure next to Astorre Mayer of Italy. I hope it will be possible for you to arrange for a photograph of me surrounded by Rothschild, Mayer, Kashfi, and Isaac Goldenberg with Earl Alexander on the right flank and General Koenig on the left flank. It is only surprising that you have not located a great Jewish leader to scale the great wall of China in order to attend the meeting.

This letter was prompted by my having been haunted by the expression in the eyes of Astorre Mayer since the date the program arrived in the mail and because of the respect I have for the genius involved in your shaping of this program which I assume will be the largest gathering of Jews in one place since our Field Marshal, Moses, crossed Sinai with his flock - tailored to the needs.

I would travel even into eternity to attend this meeting - it is fun just contemplating the meeting and knowing that you will make

Page Two

of New York on that weekend the playground of the western world. If possible, I would appreciate your saving as many of the programs as possible for me.

With best personal regards, I remain,

New York, New York

Dear Ambassador Goldberg:

It is my pleasure to extend to you an invitation to be the speaker at our commencement exercises on June 5, 1966. We would be very pleased and highly honored to have you as our speaker. I am happy to tell you that the Board of Trustees of Muhlenberg College has voted unanimously to confer upon you the degree of Doctor of Laws at the commencement, in recognition of your long and valued service to our country.

The commencement exercises will be held at 3:00 p.m. and will be preceded by the baccalaureate service at 10:30 a.m. on that same Sunday. At noon there will be a luncheon for the honored guests and the Board of Trustees, to which you and your wife are of course invited.

Muhlenberg College was founded in 1848, is a liberal arts institution affiliated with the Lutheran Church in America. It was a men's college until 1957, when it became coeducational. Present enrollment is approximately 1440. Qualified students are admitted to Muhlenberg, regardless of race, religion, and color.

I do hope that you will honor us by accepting our invitation to be the commencement speaker. Muhlenberg College will take care of any expenses incurred, plus an honorarium of \$300.

It would be helpful if you would let me know at your earliest convenience whether or not you will be able to accept this invitation.

Sincerely,

Erling N. Jensen  
President

Dear Rabbi:

In line with our telephone conversation of this day regarding Ambassador Arthur Goldberg, enclosed please find copy of the letter written to him by Dr. Erling N. Jensen, President of Muhlenberg College.

I will greatly appreciate if you will contact the Ambassador and see if it is at all possible for him to accept the invitation from Dr. Jensen.

With kindest regards to your family in which Lena joins me, I am

Sincerely,

Morris Senderowitz

Dear Mr. Friedman,

Back from a trip abroad, I find your letter of October 29.

I must tell you that the Mont d'Arbois is opening only on the 18th of December, but if this date is convenient for you, we can very easily accomodate you and your family from the 18th to the 21st.

Awaiting your confirmation, I am looking forward to see you and would be extremely happy to greet you in Megève, where I shall be myself at the same period.

With best regards, I am

Sincerely yours

Roger Boisramé

Dear Mr. Boisrame:

I am very pleased to have your letter of 9 November in which you say that the Mont d'Arbois will be opened only on the 18th.

My wife and I would like to come on the 18th and remain until the 24th. I am happy that you will be there yourself during the same period so we can again have the opportunity to renew your acquaintance.

With best regards, I am,

Sincerely yours,

Dear Mr. Barnes:

I have just received a copy of Moshe Pearlman's book on Ben Gurion which you so kindly sent to me.

May I thank you for this courtesy and for the pleasure which the reading will bring me. From the first cursory look it would appear that this is an interesting volume because of the personal insights involved.

Sincerely yours,

Herbert A. Friedman

Dear Morris:

Ambassador Goldberg has been so terribly busy that it has been impossible for me to get to see him personally. On top of that he has been ill and confined to bed for a few days during the past week.

Therefore, rather than delay any longer, I had a long talk with his secretary, Miss Garaventer, and explained to her very carefully that I was endorsing in the strongest terms the request of Dr. Jensen of Muhlenberg College.

She explained to me that the Ambassador has received the letter of November 5th from the College but has not had a chance to answer it yet because of the pressure of work. She promised that she would transmit to him my endorsement and my explanation of why I thought he should accept this invitation.

I hope it works and I look forward to seeing you and Lena at the Conference.

With best wishes, I am,

Sincerely yours,

Herbert A. Friedman

Dear Max:

I spoke with you on the telephone about the son of Dr. Chaim Sheba who is the Director of Tel Hashomer Hospital, which is the largest government hospital in Israel.

The son, whose name is Shmuel, is 25 years of age and graduated from the Haifa Technion in Mechanical Engineering. He is interested in obtaining a job with one of the large automotive companies where he would be working with automatic and semi-automatic transmissions, and under load shifting transmissions for tractors, buses and cars. He would like to have a job as close to the designing office as it is possible to get.

He is willing to go anywhere and does not simply want to be an onlooker, but wants to get actual experience. He is a very serious and hard-working boy, and I know if it is at all possible, you would want to help him.

He is staying in New York at the present time and can be reached in care of Mrs. Rubin, 147 East 63rd Street, New York City, Telephone: Te 8-8650.

I know how busy you are and how many other things are on your mind. But, I also know that you will derive great satisfaction in helping this boy by embarking him on his professional career if you can possibly do so.

As ever,

Herbert A. Friedman

Dear Herb -

Your warm letter on the occasion of the Sisterhood luncheon in my honor moved me greatly. May I express my thanks for "praising me within my gates" and for being so generous in your sentiments?

Over the years, and since the days of Aliyah Bet, our paths have crossed in experiences shared by those of us who had the privilege of touching the heart of Israel. And there is a special bond that

ists and which gives an added dimension to our feelings. I credit this background for your exaggerated account of my role.

One day, I hope the tables will be turned and that I will have the opportunity to articulate the admiration and appreciation I have held for you across the years as your work has built not only Israel but also a bridge between it and American Jewry.

Charles joins me in sending greetings to you and Fran. Again my thanks.

Sincerely,  
Cris

Dear Herbert:

Mazal Tov on your re-election to your eleventh year as Executive Vice Chairman of the UJA.

I was present during the entire weekend and heard your splendid address on Saturday night, as well as the announcement of your re-election.

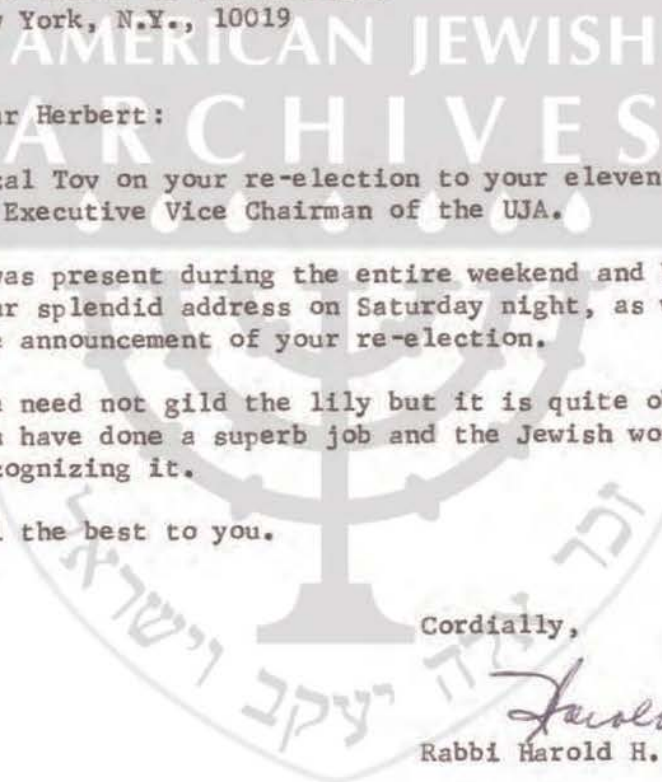

One need not gild the lily but it is quite obvious that you have done a superb job and the Jewish world is recognizing it.

All the best to you.

Cordially,

*Harold*
