Henri Bergson is the most popular figure in the philosophical world today. His theory of creative evolution has revolutionized modern thought. He leads the revolt against Materialism and Mechanism.

Rabbi Brickner will discuss the theories of "Bergson's Philosophy" in the second of the series on "Moulders of the Modern Mind."

Last week a large and intellectual audience again filled the temple to listen to the first of this series, on "Freud and Psycho-Analysis." The character of the numerous questions submitted in writing after the lecture, indicated the remarkable interest of the congregation in the discourse.

The remaining lectures in the series will be:

Nov. 4—"Einstein's Theory of Relativity for the Layman."

Nov. 11—"Lenin and Ghandi—the Modern Prophets of Utopia."

### MEN'S CLUB

The Round Table invites you to bring your business associates and guests. We have been warned that we may need the ballroom for the next meeting, so come early.

#### Fischer's Second Travel Talk

China, with a history reaching back fully six thousand years, is one more of the countries that is now going through a tremendous upheaval, brought about by economic changes and to foreign influences and interventions.

A story of the changing "China" will be told by Mr. A. T. Fischer, with slides made from his own photographs, next Sunday, October 28th, in the Sisterhood Parlor, at 9:30 A. M. As the seating capacity is very limited, come early to be assured a seat.

The group that heard Mr. Fischer on "Russia" last Sunday, were very enthusiastic boosters for the series.

#### Symposium—Nov. 8th

"Why I am a Reform, Conservative or Orthodox Jew" will be the subject of the second Symposium of the Men's Club, to
