FIRST LADY OF BRAILLE LAND!

The distinction of being the first person ever to transcribe the Bible into Hebrew Braille goes to Mrs. Harry Cole, devoted Sisterhood member. The monumental work, in 20 volumes, climaxes a long array of achievements by our Sisterhood committee, of which Mrs. Charles Korach is chairman. Dr. Leopold Duboy, editor of the Jewish Braille Institute of America, wrote these words on the fly-leaf of Vol. I of the Brailled Bible: "Presented and gratefully inscribed to Belle Cole, the 'first lady' of Hebrew Braille-Land, to whom, thousands of years after the giving of the Torah on Mount Sinai, was granted the priceless privilege of 'translating' the full Hebrew text of our ancient Holy Bible into the miracle script known as Braille. Surely, a unique and heavenblessed 'mitzvah,' an achievement of matchless worth and enduring significance!"

WE BOW

To Ruth Kumin daughter of Dr. and Mrs. Harry Kumin, one of the winners in the recent American Legion Essay contest for Shaker Heights.

LOST: A GREAT CHAMPION

Death dealt this nation a stunning blow last week when it took Henry Monsky, 57, president of the International Order of the B'nai B'rith. Among the expressions of grief was this one. addressed to Mrs. Monsky by Rabbi Brickner on behalf of the Euclid Avenue Temple and himself and Mrs. Brickner: "We are shocked by the tragic news. God give you strength to bear it. Not only you, and we, but all of world Jewry has lost, in his passing, a champion and a leader at a time when we needed him most, when his usefulness was greatest. There is no one among American Jewish laymen to replace him. In him was synthesized the best in Americanism and Judaism. He was a great humanitarian."

HOW MANY JEWS LEFT IN EUROPE?

AMERICAN COMMITTEE OF OSE SURVEY

The American Ose has completed an exhaustive enquiry to find out the number of Jews remaining in Europe. It has attempted to compile data by obtaining information on the spot, by consulting statisticians and specialists, and by getting first-hand information from organizations active in Jewish relief and rehabilitation work.

The figures listed below of the Jewish population in the various European coun-tries at the end of 1946, exclusive of the Soviet Union, are given with the express reservation that they represent approximations arrived at by taking a mean average from a number of contradictory figures. Moreover, they are subject to constant change owing to the steady movements of Jews from country to country:

MIAMI BEACH LAW WOULD PRO-HIBIT SIGNS INDICATING PREJUDICE BY HOTELS

Miami Beach, (JTA) — The Miami Beach City Council unanimously adopted a city ordinance prohibiting the display of signs by hotels, apartments and other public places which indicate the practice of religious discrimination by these resorts.

The ordinance which was moved for adoption by Mayor Herbert A. Fink, of Miami Beach, will become law at its third and final reading at the meeting of the City Council next week. The bill was submitted to the City Council by the Anti-Defamation League of B'nai B'rith and by local B'nai B'rith lodges after a survey which showed that of 67 hotels in the area that had exhibited signs using such phrases as "restricted," "Gentiles," and "Gentiles only" to advertise their discriminatory practices, ten refused to eliminate these signs.

GOLFING PARSON USES NEW APPROACH

(Religious News Service)

Pinehurst, N. C.—This golfing town, scene of many championship links matches, also has a golfing parson. For 38 years Rev. Thaddeus A. Cheatham has preached to golfers in the Protestant Episcopal Church here and has matched drives and putts with his parishioners.

Dr. Cheatham thinks golf reveals character, and he frequently refers to the game in her sermons. One of his favorite stories is:

"In a game with Parker W. Whittemore of Boston, Mr. Whittemore made an approach shot that took a bad bounce and landed in the bunker. 'That was a good shot,' he said. Later one of his shots that should have gone into the bunker took a lucky hop and finished near the cup. 'It was a poor shot,' said Mr. Whittemore.

"As a good sportsman he derived more pleasure from the good stroke that landed in a bunker than from a poor shot that landed near the cup."

The rector draws from this illustration the principle that we do not find satisfaction from the lucky breaks in life, but from making shots straight and true in life.

Dr. Cheatham's interest in golf has been made a record of history, for when the cornerstone of the Village Chapel was laid in 1924 it contained a Bible, the Book of Common Prayer of the Protestant Episcopal Church and blueprints of the four Pinehurst courses—plus the scorecard of his lowest game, a 74.

WELFARE FUND CAMPAIGN. OFFICIALLY OPENED

The 1947 campaign of the Jewish Welfare Fund, of which Rabbi Barnett R. Brickner is general chairman, began officially Wednesday evening, May 7th, with a dinner in the Rainbow Room of the Carter Hotel. Guest speaker was U. S. Senator J. Howard McGrath of Providence, R. I.

More than 4,000 workers, comprising the various teams of the Men's, Women's, Young Adults and Employees divisions, have held their organizational and educational meetings over the past few months, and pre-campaign solicitation has been in full swing for some time.

Serving as campaign co-chairmen are: Harry J. Fisher, Eugene H. Goodman, Eugene M. Klein, Mrs. L. W. Neumark, Leonard Ratner and Howard E. Wise. The Women's Division is headed by co-chairmen: Mrs. Alfred A. Benesch, Mrs. Sydney N. Galvin, Mrs. Irving Kane, Mrs. L. W. Neumark, and Mrs. Leonard Ratner. Leonard Schlesinger is chairman of the Employees Division. while Leonard Wolin-heads the Young Adult Division.

The record sum of \$4,415,000 is being sought in this year's campaign, which closes on May 20th. Major beneficiary of the goal-to the tune of \$3,400,000-is the United Jewish Appeal, which is seeking to raise \$170,000,000 nationally this year on behalf of its three agencies: Joint Distribution Committee, United Palestine Appeal, and United Service for New Americans. The balance of the local goal is to be allocated to various health, educational, cultural and community relations agencies nationally and locally that are not included in the Community Fund.

First figures on the progress of the Campaign will be announced at the report luncheon, scheduled for Friday, May 9th. Other report luncheons are to be held on Monday, May 12th; Wednesday, May 14th; and Friday. May 16th. The campaign will close with a dinner on Tuesday evening, May 20th. All of these events are scheduled for the Rainbow Room of the Carter Hotel.

IN MEMORIAM

"IF ONLY I HAD THE TIME"

Always sorrowful, seldom sincere, alibi-ing but not excusing the missed opportunity, impeding many a career otherwise bright with promise, keeping worthy men just short of success, robbing mankind of the unpredictable fruits of conscientious, well-planned human effort is that saddest of sad laments ---"If only I had the time!"

"If I only had the time!" says the advancement-minded worker, "I'd study my job outside of business hours, and become better qualified for promotion."

"I'd increase my knowledge," says the assistant draftsman, "and get ready to be chief draftsman—if I only had the time!"

"I'd study up on engineering to become an engineer," says the drafting chief—"if I had the time."

"I, if I had the time," says the engineer, "would master engineering and become head of the department,"

"There's no limit to what I could do," says everyone, "if I only had the time!"

Waiting for time to start and carry on a program of self-improvement never gets the program started. Seldom, if ever, does the time "click" with the opportunity. Practically always, the opportunity comes when there is least time. No opportunity ever loomed up and said, "Here I am! Are you ready for me?"

Fortunately for mankind, not all human action is reduced to this sad lament. Fortunately there have been, and are, men who somehow find time to study and prepare. As a result, we now enjoy common comforts, things which would otherwise be luxuries, or not exist. Men whose perseverancce and persistence made them possible-Marconi and his wireless, Watt and the steam engine, Edison and the electric light, -Wright and the airplane, Morse and the telegraph, Bell and the telephone, and countless others with their contributions to human advance-such men did not succeed by waiting for time!

INSTITUTE ON JUDAISM OPPOSES LEGISLATION TO KILL CLOSED SHOP

Chicago — The Institute on Judaism, Management and Labor convened here by Reform Jewry, went on record as opposing the Hartley Bill, which it said would cripple labor. The resolution, which was passed unanimously after hearing Jewish industrialists, labor leaders, government representatives and rabbis, condemned the attempt to eliminate "the closed shop and industry-wide bargaining."

Declaring that management and labor unions "should peaceably resolve their differences," the resolution deplored all legislation which "would liquidate the improved status which labor has enjoyed since the passage of the Wagner Act."

The Institute was sponsored jointly by the Commission on Justice and Peace of the Central Conference of American Rabbis and the Chicago Federation of Reform Synagogues. It included a general meeting, round table discussions and religious services. About 400 persons attended the sessions.

The rabbis pointed out that as representatives of Judaism they had a legitimate concern with the problems of labor. Most of the labor representatives presented statistics to prove that corporations are amassing record-breaking profits. They said the worker's share of national income is declining.

Herbert Buchsbaum, president of S. Buchsbaum & Co., pointed out that contented union labor guarantees discipline and production. George F. Kohn of Philadelphia, president of the Precision Grinding Wheel Company and a director of the National Association of Manufacturers, admitted that some of the labor legislation proposed is teo drastic, but that some regulation is necessary for long term interest of labor and management.

PALESTINE EXHIBIT READY FOR LONG RUN

New York—The complete story of agriculture, industry, science, education and culture in Palestine, in addition to more than 1500 products of Eretz will be on view at the Palestine Exhibit at Radio City's Museum of Science and Industry, opening May 1, for six months. The exhibit will then tour the principal cities of the United States.

Yona Ettinger has just arrived in this country from Palestine where he has spent the last four months assembling art, handicrafts and industrial products for the display.
