My dear Dr. Morgenstern,

Maurice Feyer was in my Confirmation Class this year. He has a fine mind and is studiously inclined. He impressed me as being a high principled lad, and from conversations I have had with him, I feel that his desire to go to the college is a very sincere and earnest one. I understand that he is devoting himself industriously this summer to the study of Hebrew. I feel that I could recommend him without any hesitancy.

With kindest regards and wishing you a very pleasant summer, I beg to remain

"THE JEWISH BOOK CONCERN"

26 EAST 22<sup>ND</sup> STREET

THE OLDEST AND LARGEST  
JEWISH PUBLICATION HOUSE  
IN THE UNITED STATES

NEW YORK July 6, 1922.

Rabbi A. H. Silver,  
c/o The Temple,  
Cleveland, Ohio.

Dear Rabbi Silver:

In looking over the sermons you sent us, I find that it will be neither practical nor profitable to put them up in book form. We would have to charge about \$2.50 for the 8 booklets, as you sent us 8 and not 7. If you can reduce the price to us to 10 cts. each, we could put them in a neat binding with typewritten table of contents and offer them at \$2. It would not pay to print a title page or an introduction.

If the above proposition is not satisfactory, may we select a number of the sermons sent, pay for them at the usual price, and return the remainder?

Hoping to hear from you soon and with best greetings, I am

Sincerely,

*Chas. E. Bloch*

Mr. Chas. E. Bloch,  
26 E. 22nd Street,  
New York City.

My dear Mr. Bloch,

After thinking the matter over, I have come to the conclusion that it might perhaps be best to postpone putting my sermons into book form until the close of next year.

In the first place, I should like to have more than eight lectures included in such a book. In the second place, I should like to have a greater number of lectures to choose from for inclusion in such a book. You may select any number of the sermons which I sent you and return the remainder.

Trusting that you will have a very pleasant summer, I beg to remain

Very sincerely yours,

July 7th, 1922.

Mr. Leo Wolf,  
Wheeling, W. Va.

My dear Mr. Wolf,

I suppose you must think me an ungrateful wretch for having delayed so long in writing to you. I really feel guilty. I have been waiting for an opportunity when I could read your interesting booklet at leisure, and I have just had that opportunity. Though not belonging to the Fraternity of the Knights of Grip I derived a great deal of pleasure and profit from your very concise, wise and thought stimulating essays.

Above all I liked your paragraphs on poise and imagination, in the latter of which I would suggest a correction in the phrase "Is sicklied o'er with dull cast of thought". If I remember correctly the phrase is, "Is sicklied o'er with pale cast of thought".

I have not yet had an opportunity of reading the two pamphlets which you sent me and which I received yesterday on my return from an extended visit to the East. I will write you about them later.

With kindest regards to Mrs. Wolf and  
Vere, I am

Dear Sir:

We must ask you to pardon our delay in answering your letter relative to bathing suit, which you state that you left in room #150 at the bath houses.

We have inquired at the different bath houses regarding this suit and cannot find out anything about it. If you would tell us the name of the bath house it might be of some assistance in recovering your suit for you. Please do not hesitate to call upon us, if you think we can do anything further for you in the matter.

My dear Mr. Scott,

Permit me to thank you for your interest. I do not recall the name of the bath house where I left my bathing suit. There was some construction work going on in the very close vicinity. The bath house was in charge of a middle aged woman and a colored boy took care of the rooms. He also took care of my room and my bathing suit. My dear Rabbi Jewish Charities should never have  
been exposed to so much publicity as it is today - If you  
drag them all in including the Orthodox Institutions  
you invite serious trouble for us as I explained to you.  
The Federations did not keep faith with our tradition  
and Jewish lofty spirited Jewish institutions - they have  
converted them all into Gentile-Jewish Charities.  
Now - they want all Jewish Institutions under the  
protection of the Community Chest - Don't fall into that  
"trap" - They are too powerful - too much of a political  
power to day - too much debauched by leading human  
venereal parasites - pious fraud - philanthropists -  
Rabbi! Keep us out from the Community Chest!!! -

By all means learn that from successful "Free  
Loan" of our Kosher - The few members of our present  
board have been bribed to of late into the Community Chest  
they were told I presume - if they will save the Free  
Loan in their Orthodox Home & others will also take  
notice - They are bound to subvert the Free Loan in order  
for way not develop too harmful to their business -

over

Most of the Community leaders are advocates of  
Money Shark Institutions. —

Even if I am beaten — I will never  
cease to work for the independence of our  
Free Loan Associations —

We are not a Charity Institution — nor  
are we running a bank under Jewish traditional  
laws — We have our own Constitution and  
By Laws under the State of Ohio — In Order  
to take from us our Charter they will have to  
take legal proceedings and ~~not~~ <sup>not</sup> ~~as~~ <sup>as</sup> long as there  
are 7 Members unwilling to change our laws  
we are protected by Law to retain our inde-  
pendence. —

We never needed their money — their  
persecution to subdue us to a Charity branch  
made them to offer us all kinds of money —  
just to come into their Quota & be supervised by  
them — that was their aim — and that  
is now what they are working for —

The Community Chest — deserves to be exposed  
their camouflage piety is of Satanic design  
it is the incubator of Political debauchery  
and I can prove it.

Respectfully Yours  
M. L. Rader.

The Temple

My dear Rabbi

I just came from a family that stood a year ago upon the threshold of public charity. I happened to take up their cause and helped them to overcome their difficulties. I wish I could take you out and prove to you that public charity is a total failure. The family today is fully self-supporting and never did take any charity.

The founders of our Jewish Institutions never intended to associate with public charities and now when our public charities have risen to a most dangerous political power - for us - to permit them - to corrupt our Board and make them defy our Constitution & By Laws - and to align as beneficiaries of their groups of charities is in itself conclusive evidence of their bad faith.

I am the only survivor of the founders of our Jewish institutions - I was 30 years associated with them. I withdrew from activities 18 years ago - until of late the alarm was given by an orthodox Jew - that our Jewish charities had all turned to be "Christian Scientists" - "Traips as a Chaser".

Movement on paper today to sever our connections  
from the Community Chest - Orthodox Jewish benevolent  
societies do not wish to draw their support from  
any other agency but from a true Jewish  
organization. Our Federation of Jewish Charities  
has overstepped their bounds when they turned all  
our Institutions into scientific humane society  
disregarding all traditional Jewish principles -

Ever since you entered our midst - extreme radical  
Judaism - has lost its grip - You are loved  
by the overwhelming majority of our true Jewish people  
reform & orthodox alike - as a true messenger of  
God that will lead us back again to true Jewish  
principles - Few members of our Board may have  
been influenced to defy our Constitution & By Laws &  
vote for us into the Community Chest - Our Rabbi - bless  
us - their heart is not in it - They may be prompted  
by selfish motives - It is your duty - that will  
be respected - if you advise them to live up to our  
Constitution & By Laws - to uphold the dignity of our  
society as our founders have handed them over -  
to uphold our unrestricted independence and to  
adjust with the Federation of Charities all claims they have  
against us - Please be with us Tuesday night -

fraternally yours

My dear Rabbi Silver,

I am sure enclosures will interest you. What do you now think  
of the Seren. idea i.e. now that it has been officially launched  
avec tous les honneurs de la guerre? I am gradually organizing  
the Board of 24 Maskilim: <sup>in Y.U., and not only 132 'il lubna'zi</sup>  
in the true sense of the word, in brief, a Board of Governors composed, pre-  
ferably, of 132 '12 + 100. The Adm. Council of 24 great Jew.  
scholars, here and in Europe.

Something of a radical nature has to be done: that  
Harv. Ed. Act is a sort of important educational drift. We have  
to reach down to the bottom of the pit. If we in Amer., with  
our freedom of speech and assembly and our wealth & numbers can  
not solve the Jew. Problem i.e. dissolve it into its component parts etc

Mr. Albert Rheinheimer,

My dear Albert,

It would be a very interesting thing to have the Shofar represented among the stops of our organ. It is comparatively a very simple instrument. A complete description of it, as well as the actual music for the Shofar calls is found in Volume IX of the Jewish Encyclopedia, pages 301 to 306.

The Shofar calls used in our Synagogues and Temples are given at the bottom of page 305.

We would not use the Shofar on any other occasions than those of New Year and at the close of the service on the Day of Atonement.

I am glad to see that you are enjoying your visit among the organ builders. I do not know why you say that you are sorry you cannot interest me in the subject. My dear Mr. Feder,

I have read with a great deal of interest what has been said and written in the last few months concerning the Hebrew Free Loan Association. I need not repeat to you now what I have said to you in conversation, of the high regard which I entertain for this organization, and for the splendid service which it is rendering our community. I know no organization that faces the problem of economic need in such a sound and logical and Jewish manner as does a Free Loan Association.

I understand that suggestions have been made that the Hebrew Free Loan Association should become part of the Cleveland Community Chest, and that considerable difference of opinion has developed as a result of it. I do not wish to enter into the controversy. I believe that your Board should first thoroughly discuss the question. It is quite clear however, that nothing should be done which would destroy the autonomy, or thwart the development of your Association, or which would be a radical departure from the traditions and spirit of its founders.

My dear Mr. Ben Avi,

A young Jewish girl, of Cleveland, Miss Bessie Spinner and her mother are to visit Palestine beginning the latter part of August. They plan to remain at least a year. Miss Spinner is a trained nurse. She was head of the Martha House of Cleveland, a sort of Y.W.H.A. She is a very talented and gifted girl, and she may decide to settle in Palestine. Any courtesies which you may extend to her will be deeply appreciated by me.

I trust that you and your dear father are well. I am hoping some day soon to have the pleasure of seeing you again. With kindest regards, I am

Faithfully yours,

July 21st, 1922.

Mr. Dave Kohn,  
a/c E. Kohn & Son Co.,  
E. 105th & St. Clair Avenue,  
Cleveland, Ohio.

My dear Mr. Kohn,

I am sending you herewith a check for the full amount of contributions received by me for the Diskin Orphanage, \$1359.22. All told I collected \$1402.17. Of that amount \$52.95 was spent for the printing of circulars, envelopes, postage, etc. I am enclosing herewith four checks covering this item of expense. I trust that by this time you will have received the contributions from the Euclid Avenue Temple. I suggest that you forward all the money on hand at once to the "Great Palestinian Orphan Asylum, Diskyn" Jerusalem, Palestine.

With kindest regards, and trusting that you are having a pleasant summer, I beg to remain

Very sincerely yours,

My dear Mr. Pratt,

I have known Mr. Xaver Mikecinati for some years. He has impressed me as a very earnest, hard working and reliable lad of fine qualities. He is greatly devoted to his family, which devotion is reciprocated by all the members of his family. Any courtesies which you may extend to him will be deeply appreciated by his friends.

Dear Rabbi:-

I tried to  
reach you before we  
left the City but was  
informed that you  
were out of town.

Our invitation is  
still good, as we certainly  
would be pleased to  
have you with us, if  
you would care to  
rough it a little and  
at the same time get  
a real rest and a  
little pleasure out of  
it.

The weather has been wonderful. Had to use woollen blankets every night.

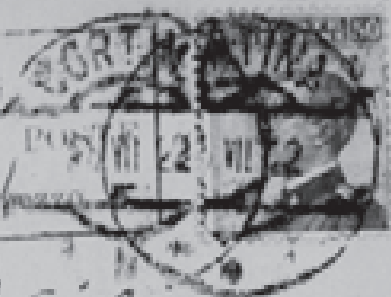

If you decide to come, take the 11:30 P.M. N.Y. Central for Toronto arriving there at about 8:30 and then leave for Parry Sound at about 9:20 arriving at Parry Sound at 3:30. If our boat is not at the dock go to Scott's Boat House and have him take you to the Cleveland Island Club.

Hoping to see you soon

My dear Mr. Bloch,

Kindly return 10 copies of  
Judaism and Christian Science as we have  
only a very few on hand. It would be  
best if you would remit for the remaining  
sermons, on the same basis as you have been  
paying for previous consignments, direct  
to The Temple.

With reference to sermon number 1,  
Judaism and Christian Science, I understand  
that you have been paying  $7\frac{1}{2}$  cents per copy  
for it. If you feel that that does not give  
you a sufficient margin, please let me know.  
I do think that the price of that pamphlet should  
be increased to 20cents. In that case the price  
to you would be the same as of the other pamphlets.

Trusting that you are having a very

My dear Rabbi.

The enclosed statement tells  
its own story and proves to you  
that our board was justified  
to refuse your endorsement  
upon a loan which is considered  
doubtful.

I am looking however forward  
for your endorsement of our great

Your endorsement for our  
great cause in general is badly

My dear Maxwell,

I doubt very much whether it would be possible for you to procure remunerative service with the P.D. C. There is only one salaried official in the organization and that is d'H. and his stenographer. There are some college men who have undertaken to sell stock for the Rutenberg Project at 4% commission. I do not know that there is much money in it.

If I were you I would try to go to Yonkers. If you think a letter to Tarsish would help, get me his address and I will write to him. Why don't you drop around to Bloch's and look over their list. Bloch might give you some helpful suggestions.

Dear Sir:

Would you kindly consider  
government plan on other side  
of this sheet. The intention is  
simply plain business representation  
by all lines of business in groups,  
to secure plain simple laws, free  
of controversy provoking technicalities.  
All I can do in the matter is to call  
for consideration of the plan, my  
being only a machinist and

## PUBLIC GOVERNMENT REPRESENTING BUSINESS GROUPS.

A public representative and executive government plan for the business and social life of villages, cities, counties, states and nation in village, city and county councils, state legislatures and national congress; which representative bodies are to control all public business for their respective territory of a nation. A majority vote required of total membership of a representative body to pass any measure and the resulting document signed by all members voting for passage of the measure to fix responsibility. Each member of a representative body to represent only one group of voting citizens in the same or allied business, as employers or employees, and independent of but equal in power to any other group of citizens. All members of the same representative body to be independent of each other but equal in power to each other. Each representative body to elect an executive official, responsible to it to execute thru departments all measures it passes. The elected official to appoint and control all his or her department chiefs, who appoint and control all help for their department work. All not able to vote responsible to voting citizens.

Candidates for representative membership nominated by petitions signed only by those voting citizens in the same business as themselves and elected with an alternate at large every two years in their respective village, city, county or state as representatives in public representative bodies. The initiative and referendum to be used to decide groups of voting citizens to be represented, and when representatives fail in their duties to those that elect them.

A village council of village council members has each member represent only one group of voting citizens in the same or allied business, each group of voting citizens equal to in power but independent of any other group of voting citizens in the same village. The village council to control and be responsible for all village business and elect a village mayor responsible to it to execute, thru departments, all measures passed by the village council. The village mayor to appoint and control all his or her village department chiefs, who appoint and control all their department help. Village departments being: Law department for village courts, legal interests and permits. Finance department for village finances, taxes and bonds. Building department for village land, buildings and bridges. Street department for village streets, parks and transportation. School department for village schools and libraries. Public safety department for village police, fire protection and prisons. Water department for village water supply and sewers. Health department for village health, charity and amusements. Lighting department for village lighting and power.

To become a village council member, circulate a petition as candidate for membership among those village voting citizens in the same business as candidate and have it signed by at least as many of these as will total one per cent. of total number of the village voting citizens. Then have signed petition recorded by the village clerk, who has candidate's name printed on the ballot in group of candidates for one membership for the election of the next village council. One candidate of each of the groups of candidates getting the highest number of votes, is elected village council member to represent a group of voting citizens in the same or allied business, and serve two years beginning two months after election. Another candidate of the same group of candidates getting the second highest number of votes to be alternate for the elected member.

A city council of city council members has each city council member represent only one group of voting citizens in the same or allied business, each group of voting citizens equal to in power but independent of any other group of voting citizens in the same city. The city council to control and be responsible for all city business and elect a city mayor, responsible to it to execute thru city departments all measures passed by the city council. The city mayor to appoint and control all his or her city department chiefs, who appoint and control all help for their department work. Members nominated and elected similar to village council members.

A county council of county council members has each county council member represent only one group of voting citizens in the same or allied business, each group of voting citizens equal in power to, but independent of, any other group of voting citizens in the same county. The county council to control and be responsible for all county business and elect a county manager responsible to it to execute thru county departments all measures passed by the county council. The county manager to appoint and control all his or her county department chiefs, who appoint and control all help for their department work. Members nominated and elected similar to village council members.

A state legislature consisting of all members of all the county councils of a state. The state legislature to control and be responsible for all state business and elect a state governor responsible to it to execute thru state departments all measures passed by the state legislature. The state governor to appoint and control all his or her state department chiefs, who appoint and control all help for their department work.

The national congress to consist of congress members of and for each state; two at large for each state and one additional for each one hundred thousand voting citizens in each state, all elected at large in the state and each one representing one group of voting citizens equal to in power but independent of any other group of voting citizens per congress member in the same state. The national congress to control and be responsible for all national business and elect a national president, responsible to it to execute thru national departments all measures passed by the national congress. The national president to appoint and control all his or her national department chiefs, who appoint and control all help for their department work. Members nominated and elected similar to village council members.

This public government plan simply elects village, city and county council and national congress members by the public every two years, each member represents his or her business experience and is nominated by his or her own kind only. All executive business centers in one executive official for each representative body, which official can make such work a profession, must be a citizen of the nation, but need not be a voting citizen where his or her official work is. Hoping it secures honesty, efficiency and simplicity, I remain,

Respectfully,

OSCAR TROMLITZ.

To whom it may concern:

Mr. James Maisel is the representative of the Hebrew School (Talmud Torah) Organization of Cleveland. He is endeavoring to interest a larger number of people in the higher meritorious work of this institution.

It is with pleasure that I recommend his cause to your attention. The various branches of the Talmud Torah in Cleveland impart Hebrew education and ethical training to thousands of Jewish children in our community. It is a cause that should appeal to all Jews, Orthodox and Reform alike.

Dear Mrs. Feiss,

We have been very much interested in your novel and suggestive paper, and should be disposed to find place for it in The Atlantic had we not just suggested to a Jewish contributor of ours that we print a paper in an early issue on Jews and college. Besides this, we have another Jewish paper in the offing, and there are so many matters of which we ought to treat that we think on the whole your article had best be returned to you.

With many thanks, we are,

Yours faithfully,

The Editors.

Dear Rabbi Silver:

Good fortune brought the issue of the Jewish World to my notice, wherein the good news greeted me that you were engaged to be married. I hasten to add my congratulations as well as those of Mrs. Caplan, to those of your many friends and well-wishers. I regret keenly that I am not able in person to convey to you my greetings and good wishes.

With kind regards,

Sincerely,

ANTIOCH COLLEGE  
YELLOW SPRINGS, OHIO

August 8, 1922.

Rabbi A. Silver,  
56th & Central,  
Cleveland Ohio.

Dear Sir:

An application for admission to Antioch College has been filed by Mr. Alan Klein, who has referred us to you for information. Through giving us your personal and confidential opinion, you can render a material service to the College and to him.

We are making a very careful selection of students. For a student to come to us who is not fitted to the college will result in his having to leave at considerable embarrassment to himself and loss to the College, when this fact becomes evident. We have a limited number of openings for young men and women of good quality, and these places must be saved for that type of student. We find many people inclined to give favorable but uncritical endorsements of applicants, through a feeling of friendship. Such letters are misleading and tend to make it difficult for us to reach accurate conclusions. If you will tell us as honestly and as accurately as you can, what you think of this applicant, we shall be enabled to form an intelligent judgment.

Will you please fill out the enclosed blank; and second, which is even more important, will you write us an informal, personal letter telling us just what you think we ought to know about the applicant in order to reach an intelligent conclusion? We should like especially to learn of any outstanding qualities, either good or bad, in the applicant or in his family.

Enclosed is a pamphlet describing the general aims of Antioch College. A few minutes spent in reading this summary will enable you to judge the kind of college to which this applicant has requested admission. Since it is already late in the season, both we and the applicant will be greatly assisted by an immediate response.

Yours very truly

# *Antioch in Brief*

**The Reorganization.** Antioch College was opened in 1853 with Horace Mann as its first president. A pioneer in education, it was the first American school of college grade to admit men and women without distinction.

Recently Antioch has been completely reorganized, again as a pioneer institution. The president, Arthur E. Morgan, an engineer of several of the largest flood control projects in America, has employed about 2000 college graduates, and for twenty years has observed how college training has failed or succeeded in preparing them for life. The board of trustees consists of bankers, educators, publishers, engineers, manufacturers, and lawyers; nearly all nationally known for originality, vigor, and success in their undertakings.

In planning reorganization, the fundamental process was to make a new, fresh examination of the conditions of modern life, of the problems and experiences the student most probably will meet after graduation, of the decisions he must make, and of the opportunities he will have to make life worth while. Based on that examination, a program was developed, subject to modification as experience dictates, with the aim of enlisting all the student's qualities and resources, and the accumulated knowledge and experience of mankind, to give his or her life full, well-proportioned development. This process has resulted in many notable departures from traditional college methods.

**Characteristics.** While there is provision for full-time students, about 85 per cent of the student body divide their time between academic work at school and economic work outside. A single job is held by two students, who alternate in five-week shifts. The schoolroom work is divided about equally between technical or professional education for a calling, and the essentials of a liberal education. In the liberal courses the student is given an acquaintance with fundamentals of nearly all the main fields of human knowledge and interest, rather than a more detailed knowledge of a few subjects. The technical or professional courses aim to prepare the student for responsible management and proprietorship in preference to making him a technical specialist working under orders. This training for proprietorship also aims to prepare for management in one of several specific callings, including educational administration, industrial organization, machine shop operation, printing and publishing, contracting, civil and mechanical engineering, manufacturing, merchandising, and (of interest especially to women) institutional and household management.

For students who wish to carry a subject, either cultural or technical, beyond the limit of the regular courses offered; "autonomous" courses are provided, in which the student is furnished library and laboratory facilities, and occasional conferences with qualified teachers, and otherwise carries on the work alone, or with a small group.

The chief reason for the part-time work is its educational value. The ability of the student largely to support himself is the best possible training in self-reliance. Under present economic conditions the average student cannot entirely pay his way during the first two years. Boys as a rule should have at least \$200, and girls \$300, the first year, and perhaps as much the second year. The Antioch Loan Association is a mutual organization of students, limited to those who have proved their ability and serious purpose, who pool their credit for such loans as they may need to meet any deficiency of individual income. It furnishes excel-

lent training in judging associates and in practical finance. For alternating students the course requires six years, though good work may reduce that time by a year or more. Full-time students require two years less time.

**Value of the Plan.** Technically trained men and women commonly are so lacking in general education that their range of interests and their degree of success are limited, while graduates of liberal arts college frequently find themselves unprepared for any calling. The combination of the two types of preparation, carried on together and integrated into a single course, makes better citizens, more effective producers, and men and women who can get the most out of life. A broad basis of liberal education, combined with effective training for a particular calling, is the best insurance of substantial success. As to cultural development, a liberal education which gives an introduction or furnishes a key to all the more important fields of human knowledge, which discovers new interests, and which prepares the way for continued broad development through reading and observation, is of greater value than the usual arts college course, which gives an introduction to comparatively few fields, leaving the student without even a key to vitally important subjects.

Nearly all professional and technical schools train technical specialists. Few, if any, give all round training and practice in proprietorship, combined with a cultural education. There are several million proprietors in America, including manufacturers, farmers, publishers, professional men and women in private practice, and home makers. No other field offers such opportunities as proprietorship and management for financial returns, independence of action, opportunity for social and civic service, and the full development of personality and power.

Women today even more than men are in need of training in administration and management. The husband may make a living by specialized work without great responsibility, but the wife must spend the income and manage the home. Managing ability in the home makes the difference between the household drudge and the woman who has time and leisure for varied interests. Antioch aims to train women for home administration, as well as for proprietorship or management in other callings.

The business administration courses, including such subjects as accounting, budgeting and cost keeping, purchasing and selling, employment management, industrial research, industrial management, and advertising, as well as the part-time work, give students introductions to many specialized callings. If a student is fitted for one of these, rather than for proprietorship, he has opportunity to discover his calling and to prepare for it, an opportunity not afforded by the usual specialized technical courses. Moreover, the training received in business management has high value regardless of the occupation he or she may follow.

The part-time economic work develops initiative, self-reliance, and responsibility, helps one to discover and to develop his powers, and trains him to meet men and conditions effectively. The student learns what different callings demand and offer, and has opportunity to observe how effective he will be in them. In short, he finds himself while in school, and is saved much of the apprenticeship, experiment, and stumbling, which commonly consume several years after graduation, just at the time when young men and women are making their most fundamental decisions. Graduating with few if any debts to pay, the student is ready to assume family and business responsibility.

The faculty in business administration includes practical men and women of wide business and professional experience, who advise with students on their co-operative work. On returning from working periods the students hold confer-

ences with these men and women to get full benefit from their experience. In the "Antioch Industrial Service" these experts furnish technical service to surrounding industries, and so keep in immediate touch with present-day problems. We hope shortly to have industries on the college campus, in which the student can spend his working periods, while continuing in the college environment. At present the students are working in about fifty firms in surrounding cities, while several have organized and are operating small businesses of their own.

**Student Life.** Most students live in dormitories while at school, a few in homes in the village. The men's dormitory contains 90 rooms, and the women's about 70. Students live two in a room, or four in suites of three rooms. All bed rooms have hot and cold water. The alternating plan has great social advantages for the self-supporting student. Both men and women alternate between work and study, regardless of financial condition. They work in regular periods, and so avoid the physical strain of the conventional self-supporting student. During the five-week school periods they do no outside work as a rule, and so can enter fully into college social life. Men students working in Dayton have a club house which provides a home during the five-week working periods.

The discipline and management of student affairs is handled by a student government. Collegiate and intercollegiate athletics have their usual place, except that all students are required to take some form of exercise and recreation regularly, and that intercollegiate athletics are not allowed to dominate the college. Other student activities are a literary society, a debating club, the Antioch Religious Union, the "Why" club for the study of international affairs, the Radio club, the Athletic Association, and the College paper. (The Antiochian \$1.00 per year.) Other activities, such as a Glee club and a field club, probably will be organized in September, 1922.

**Religious Life.** Antioch is not a sectarian school, and the religious services and activities are undenominational. The purpose of Antioch's existence is the development of high standards of character and the spirit of aspiration and service. Everything else is but a means to that end. The quality of our institution cannot be discovered by any printed statement, but by the spirit that pervades it. We believe Antioch is an influence for building true men and women.

**Type of Students Wanted.** Students of poor quality, low standards, and low ability do not belong at Antioch. High school graduation or success in passing college entrance examinations do not insure entrance. On the other hand, boys and girls of fine quality sometimes for good reasons do not complete high school. If they are of the right intelligence, maturity, and character, they will not be rejected on that account. If the student lacks a few essentials for entrance, these may be made up in the Antioch School. We have a number of students whose past opportunities have been limited in many ways, who nevertheless are doing fine work. Any boy or girl who applies is given friendly, careful consideration as to character, intelligence, health, reputation among his associates, preparatory record, and his own ideas as to his purpose. No formal examination is required. New students next year will be limited to about 150.

**A Small College.** Antioch must remain a small college, so that close personal contact between student and teacher is possible. We are determined to avoid the great masses of students, and the loss of personal contact and friendship, which is so characteristic of our great universities. The entire country has been searched for a faculty of men and women of sound scholarship who have vision, courage, and enthusiasm to make the undertaking a success.

The college has a beautiful campus, and wooded surroundings of great charm.

**The Antioch School.** The Antioch School, associated with Antioch College, consists of an elementary department, receiving boys and girls from five years to junior high school age, and a secondary or high school, which carries pupils to college entrance. There are dormitories for boys and girls of nine years or over, and a limited number of boarding pupils are accepted.

The Antioch School is one of the so-called "progressive" schools that are receiving general recognition in American education. Rigid formal silence is replaced by normal freedom of motion. In addition to the necessary drill and subject matter of the early school years, the children are given free opportunity and occasion for developing self-reliance, initiative, manual ability, and children's normal social relations. Much of the teaching is informal and individual, the effort being made to discover and to develop the child's individuality with due regard to his social responsibilities, and not to force all children to an artificial likeness. Wholesome family duties are required of all boarding pupils, to develop habits of orderliness and responsibility. Promotion is by subject, and students sometimes take college work in some subjects before having completed the secondary school. The school headquarters are a beautiful wooded tract of ten acres, on which a large colonial house is being prepared for a boys' dormitory.

My dear Mr. Ochs,

I am taking the liberty of forwarding to you the enclosed paper called "Are We assimilable", written by Mrs. Paul Feiss of Cleveland. It is in the nature of a reply to the perfectly vicious and harmful article which appeared in the August Atlantic Monthly, under the title of "The Non-Assimilation of Israel" from the pen of Mr. William Yale. It has long been my impression that the editors of the Atlantic will publish only those papers touching upon Jewish life which have a decided Anti-Jewish bias.

I believe that Mrs. Feiss' article should receive the widest publicity. It is, as the editors of the Atlantic, in returning the manuscript said, "novel and suggestive". It is also comprehensive and exceedingly well done. While it is in the nature of a reply to another article, it is yet in itself a complete and stimulating discussion of a subject which is now receiving considerable attention.

Mrs. Feiss is one of the most cultured women of our community and is the wife of Mr. Paul Feiss who was president of Cleveland Chamber of Commerce and is today one of the most active men in civic enterprises of our community. I think the publication of her paper in the Sunday Times would be a distinct service not alone to American Jewry, but to Christian-Jewish concord as well.

To Jewish Welfare Board  
Cleveland

Monday -

Dear Abba,

And now comes the  
bad news for me (which  
by the way might be very  
bad news for you) - I've  
already found rooms, 4  
lovely large rooms on the  
Concourse and am very  
very eager to begin  
housekeeping on my own  
hook - all of which sadly  
hints at a general destruction  
is your sharp look. Needless  
to say I sympathize with

you - But its a helpful situation.  
I am sure you'll appreciate that  
in your baby sister - "There  
ain't no make" "Thank Godness"  
I've already selected beautiful  
furniture and everything - something  
to make up the cozy little  
love nest imaginable, all of which  
don't need a thing unless dear  
Abba's check comes tracing eastward.  
Now that I've succeeded in taking  
the joy out of you for the rest of  
the day - I better change the  
subject to alleviate the pain -

Mama and Papa are away  
in the mountains having a very  
cozy rest - and Maud and Jane  
are with me here in the Bronx  
(because they rented out their home for  
the summer with the intention  
of spending theirs in camp). Their  
intentions are always good - and  
I am experimenting by cooking  
all of them - but fails - By the  
way Maud is now working in  
a Bank with the intention of soon  
becoming Bank President. (?)

How are you dear, and Virginia.  
How happy you both must be....  
Give her my love and tell her I  
think sweetly of her and will write  
her soon - I've been so busy as  
chief housekeeper, these last few  
weeks - Are you leaving for  
California - Do you intend to come  
to New York soon - Please write me  
just how soon you can send the  
money so I can make definite  
arrangements with the landlord -  
He promised to hold the rooms until  
some time in September. I am

Cannot get it together so  
soon. I can wait a few  
weeks, but want to know  
just where I stand -

Everybody is very happy  
about your engagement and  
we have received congratulations  
from many of our relatives -  
Can well imagine how you  
must be showered with them -  
And all the good wishes  
you have been getting - I  
only hope that every one of  
them will come true because  
to me too (besides your sweet self)  
you are the most wonderful  
boy in the world - No kidding.

Sincerely

Dear Rabbi Silver:

We beg to acknowledge receipt of your letter of the 18th, and wish to inform you that Mr. Kraft has gone on vacation until after Labor Day. Your letter will be called to his attention immediately upon his return, and you will doubtless hear from him shortly thereafter with reference to your note concerning Miss Goldman.

In the meantime, we have taken the liberty of forwarding to the Shenandoah YMHA your preference as to the date for your address, and also the information as to your honorarium. As soon as we receive their reply, we shall write you again.

With many thanks for your interest and co-operation, we are

Sincerely yours,

JEWISH WELFARE BOARD

Prof H. W. Attelsson  
Dear Colleague:-

Mayol too, most heartily. A  
much belated copy of the Israelite reached  
me here, bringing me the very good news. Of  
course it wasn't altogether a surprise, as  
I heard <sup>whispered</sup> rumors thereof during the Conference  
at Cape May. Glad to know that in this instance  
they didn't prove mere rumors. Had the pleasure  
of spending several hours in Miss Hockheimer's  
company together with Morris and Polly out at  
Niagara Falls, the time of the Buffalo Convention  
of the Union. She impressed me as a wonderfully  
fine girl - attractive, very bright and charming.  
And since you're a mighty dandy fellow <sup>yourself</sup> - why  
it's a splendid match. Here's wishing you  
both the fullest measure of happiness!

My dear Rabbi Silver:

Mr. Albert Abrams came to this office during Mr. Bettman's absence from the city on his vacations. The writer, a young lawyer in this office, who has often heard of you through his friends Rabbi Barnett Brickner and Felix Mendelssohn, et alii, aside from reading of you in Yiddish and other papers, made immediate efforts to assist Mr. Abrams. Through the good offices of Dr. Morgenstern, Judge Walter M. Shohl agreeably expressed his willingness to cooperate. We appeared before the Board this afternoon, and Judge Shohl's earnest statement was both precise and impressive. Abrams, too, made very good impression on the Board. He will be notified within the next few days.

I wish to assure you that Mr. Bettman would have gladly given of his time and ability in this instance, were he in the city; and that both the Judge and I, and indeed Dr. Morgenstern, took a deep interest in this deserving case, and used our best efforts.

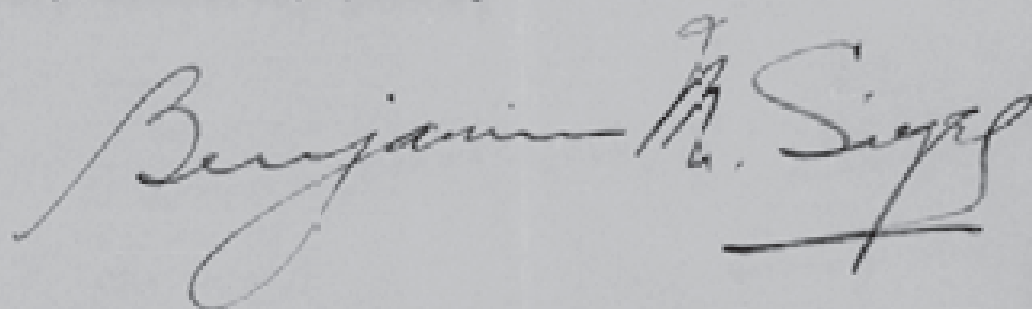

I hope to have the pleasure of meeting you in person.

With kind regards, I am

Very sincerely yours,

My dear Silver:

I beg to acknowledge receipt of your letter of the 16th instant giving me the information you possess about Mr. Nachman L. Freidless.

I am happy to have this letter and shall file it with his application and lay both before the Applications Committee at its meeting on September 28th.

In passing let me ask whether you ever received the letter I sent to you some weeks ago when I received the cards announcing your engagement? I have been wondering whether this letter ever reached you.

With very best regards, I am ever,

Faithfully yours,

Rabbi A. H. Silver,  
The Temple. E. 55th & Central Ave.,  
Cleveland.

Dear Rabbi:

We Jews of Cleveland, as you know, have been kicked around from pillar to post in order to get a meal when the time for a meal arrives as it does, usually, several times each day. We wander around the different hotels, cheap restaurants and cafeterias and exemplify "The Wandering Jew." To end this situation, we are organizing a downtown Club, which will be formed for the purpose of affording us a convenient meeting place where we can get our meals but in addition thereto other activities will be added, from time to time, which you may or may not approve but which, I can assure you, will not violate any of the Ten Commandments. The Club has been good enough to honor me with the presidency which, in and of itself, should convince you that the Ten Commandments and all other commandments which are ordinarily observed in respectable society will be strictly complied with.

I have been requested to ask you to join the Club and, therefore, enclose application card. Knowing intimately the members of the Board who will pass upon your application, I feel fairly confident that your application will be favorably considered; you need give yourself no concern on that account.

I wish, therefore, you would be good enough in your wisdom to sign the enclosed card and return the same to me.

Sincerely yours,

Emil Joseph
