If it is perfectly legal for a man to make wine or beer in his home and to drink it, why should he not be allowed to buy it? Why not permit a man to obtain good wine and beer at a store instead of forcing him to manufacture it himself, when he may not know how? Perhaps our government will now undertake to establish popular ~~XXXXXXXX~~ ^{courses} training in the recondite art of wine and beer making. A man's home hereafter will be not only his castle but his winery and brewery as well. Home, sweet home!
