Education and the good life, 1935.

ABSTRACT OF ADDRESS DELIVERED BY RABBI ABBA HILLEL SILVER AT WESTERN RESERVE
UNIVERSITY ON WEDNESDAY MORNING, JUNE 12, 1935

The first function of education is to teach man to think intensively, to think critically, and to think imaginatively; to endow his mental life as far as possible with the power of concentration, with canons of judgment and with the urge to adventure in the undiscovered continents of truth. But this is not the whole of education. Education for efficiency is only one-half of education. Education which stops with efficiency may prove the greatest menace to man and to society. The most dangerous criminal may be the man who is plentifully endowed with the gifts of concentration, reason and imagination, but with no morals. Perhaps the most dangerous epochs in civilization are those in which the mind of the race has out-distanced its spirit, in which the increased power of the race, made available through new discoveries and inventions, is not harnessed and guided by an equally increased ethical purpose and by higher consecrations.

Intelligence is not enough. Intelligence plus character -- that is the goal of true education. To integrate human life around central, focusing ideals, and to supply the motive power as well as the technique for attaining these ideals -- that is the highest effort of education. The complete education gives us not only power of concentration, but worthy objectives upon which to concentrate, not only a critical faculty for precise judgment, but also profound sympathies with which to temper the asperity of our judgments, not only a quickened imagination, but also an enkindling enthusiasm for the objects of our imagination. It is not enough to know truth. We must love truth and sacrifice for it. It is not enough to be quick of perception. We must be quick to respond to the appeal of human loyalties. Our lives need much more than a precise, eager and powerful intellect. They need not only knowledge which is power, but wisdom which is control. They need not only truth which is light, but goodness which is warmth. They need love and loyalties and the lift of aspirations. They need charm and dignity and a splendid restraint. They need quietness and peace and kindly human contacts. The broad education will, therefore, transmit to us not only the

accumulated knowledge of the race, but also the accumulated experiences of social living. It will translate truth into a way of life. It will educate us for the good life.

1/2 fold - enable - to think critically
Not enough - stops
Not only power of concentration -
Know Truth -
We need not only

2/ Good life - Sanity - upset -
Govts - 1/2 - Cauldrons -
Terrorism

(a) Econ. Scene - bewildering -
Geared up - unemp.

Surplus -

Banks

Spend millions on Educat.

- Nothing Stable - Secure

- Rumblings of class struggle

- A Mad world

3/ And yet - isles of sanity -
Not isolate -
Hell!

4) How?

- ① Bound to pass away - Transition -
- ② There are things which abide
- ③ Set a def. Goal -

5) What Kind of Goal - Auxiliary -
New Philosophy - Essence -
Cultivation - Burying to flower

- ① Man is more > Job.
One thing
Multiple relationships - See
More > 1 world
Mental - Spiritual - aesthetic -
Goal is simultaneous -

6) Goal cannot be utterly defeated
- Will - Courage

Call for the Patience - short-cut -
Transfer Responsibility to society -
Strike, by all means, the Key -

7. Sanity is possible even
rigorous self-discipline.

If our education will help us -

- jointly - "Nationalist War"

1. 2-fold function - utility - culture / ^{enable a man} efficient - humanize him.

Teach us to think intensively, critically, imaginatively

Not enough - Ed. which stops at efficiency - menace to society.

The most dangerous criminal - plentifully endowed with gift of concentration,
reason + imagination - But no morals

Dangerous efforts - mind outworn its spirit; increased power
not harnessed by high social purpose.

Not only power of concentration - worthy objectives upon

.. .. critical faculty for precise judgments - propulsion
of aspirations to temper.

... .. guided imagination - essentially enthusiasm for ideals & aspirations

Not enough to know truth -

We need not only knowledge - wisdom

... .. Truth which is by at least goodness - warmth

.. .. love, loyalty, aspiration.

Educate us for the Good life.

2. Good life characterized by Sanity.

Difficult to be sane - Every thing upset - all about
confusion, conflict, misadjustment

Governments & world - coming or going - 1/2 of stable -

Pol. cauldron - seething - witches

Terrors - conspiracies - assassinations - perches - order of
instruments of pol. policy

Economic scene - equally bewildering. Grand ap - millions
unemployed - 1/4 of population on public relief -
Surplus - plowed under - millions - inadequately fed, clothed, sheltered
Banks flushed with money - but credit stringency
Govts spending hundreds, millions to train young men -

- (1) Nothing stable. Job insecure - Future insecure -
- (2) Rumblings of class struggle - Terrorism employed
- (3) A mad world, my friends!

3. And yet - just because times are out of joint - discipline
ourselves into some ways of thinking & living.

It is in such times men lose perspective, even, balance &
proportion, to become topsy-turvy.

It is in such times, temperatures / men's minds boil particularly
high - Stale & fever - realities lose their sharp outlines -
men are intellectually dazed & bewildered.

4. Build for ourselves islands of sanity - wherein we can live
decently as beings & men.

Not isolate - hermitage - retire to some ivory tower
cannot be done - This is our world - we must
live in it.

Hillel - p/p 2 - inspire others to do likewise

5. How? A calm realization that this crazy order is bound
to pass away - Not last stage! Transition Age, deepening
mad, but only a transition age!

6. The things that abide -

7. A definite goal - will help to keep on course steady.
- If you don't know where you are going - wandering
- Unless wandering leads to defeat - disaster
- You may not reach your goal - Few men do!
- Goal condenses our actions,

8. Goal used to be material property - Our civilization -
Began with class & 18C. - cultured, beyond classes -
Further marked westward - across wealth!
Fast further marked - new ideal - Fair distribution
American people reaching out for new philosophy - Emerson

Goal is cultivation of self in society -

Bringing to life all that is seeded in individual

Man is more than a job -

More than one thing to do in world

Multiple relationships in which he must stand for means
Son - father husband - friend - citizen - employer etc
Perfecting ~~is~~ as a relational human being.

Man must have more > 1 world

- { A mental world - which unites - ideal & barren
A spiritual .. of love, value, byathis
An artistic .. beauty, joy, want

Goal is vital beginning to ^{uphold} ~~cultivate~~ all these worlds - for the
greater glory of the adventure of living!

6 - Seeing Agriculture, Henry A. Wallace, "New Frontiers" (Jost)

9. This goal cannot be utterly defeated by external assistance
untoward circumstances - difficult - not impossible.
Depends only partially upon outside forces - Will, Courage,
High regards for one self + one's fellowmen

10. Calls for patience of creative work - in steady
cumulative effort.

Man who sets such goal - by himself - short-cuts -
will put focus & resp. within himself -
will not transfer all resp. to Society

Too many people Whatever is wrong in themselves
Under the most perfect Society - men can still be
involunt, sluggish, selfish, prejudiced, cruel, vulgar

Strive by all means for a better social order
But - Society can only give key to outer world -
inner chambers - we, ourselves, must fashion them

11. Society is possible in these warring times -

Calls for rigorous self-discipline

Courage, steadfastness to goals.

Win for ourselves large measure of satisfaction and
peace —
