THE LONG ISLAND CONFERENCE on March 23 is called in response to the recent National Conference for Palestine at Washington, which summoned all sections of American Jewry to mass their full strength in defense of our people's program in Palestine.

It is of the utmost importance that we of Long Island in common with other communities, shall —

—demonstrate forcefully our vital concern in the welfare of Jewish Palestine;

—voice publicly our insistence upon Jewish rights and maximum Jewish opportunity in Palestine;

—counsel with one another and plan effective cooperation with the Washington Conference, on behalf of the thousands upon thousands seeking refuge from German, Polish, and Roumanian terror.

Zionist members and contributors, representatives of organizations and communities are most cordially invited and earnestly urged to participate in our deliberations.
