What can religion offer a war-torn civilization?, 1939-1940.

WHAT CAN RELIGION OFFER A WAR-TORN CIVILIZATION?

By
Dr. Abba Hillel Silver
Cleveland - Ohio

Religion offers a war-torn civilization a Challenge, a Criticism and a Hope.

The Challenge is to go forward in spite of the appalling back-sliding which is war. For war is a back-sliding and those who are responsible for it, or who believe in it as an instrument of national policy, or who regard it as desirable, or as an inevitable element in the order of society, are not completely men, are still denizens of the midway world - the half-man, half-beast stage of human evolution.

In the sub-human world, war is of the very order of nature, but man though sharing in this original arrangement of mutual murder has been given the vision away from the beast - the vision of peace. In spite of heart-breaking disappointments, religion must continue to hold this vision aloft, to denounce the jungle ethics of war, the insanity of competitive armaments, and the madness of draining the energies and substance of the peoples into munitions of death.

At the end of this war, the religious forces of mankind must make another effort to re-establish a league of free peoples to insure international law, order, and morality. The prospect may be very discouraging. The odds may seem all against it. But the effort to master the forces of death through the forces of life must be made. There is no other way.

Religion offers also a criticism of modern civilization which can not be denied. The basis of our civilization is unsound. It has been concerned too much with things and not enough with life. The chief ambitions of nations have had to do with the acquisition of wealth and markets and not with the good

life of their citizens. Furthermore, it is to the Tree of Knowledge that our generation has turned rather than to the Tree of Life. But knowledge is not enough. "There is a wisdom which multiplieth bitterness."

Our industrialization has led to bitter industrial strife in each country. The increase of wealth has increased social discontent. The struggle for foreign markets and spheres of economic penetration has led to the building up of huge armies and navies, to the militarization of nations, and to war. There is no way out of this vicious circle except through a spiritual re-orientation on the part of men and nations. In place of strife-breeding cupidity there must come an understanding of the technique of cooperation based upon a realization of the complete interdependence of all classes and of all nations. What nations and what classes of men are talking today in terms of charity, humility and self-sacrifice? What has become of the sacred ideal of a humanity made whole through Knowledge, Sympathy and Faith?

Religion also offers mankind in these dark hours, a Hope - an enkindling enthusiasm for humanity and its high destiny, an undefeated belief in a growing humanity. There is much in our world today upon which the cynic and the skeptic may well feed. There is so much that points to decline and degeneration, and yet religion which draws its inspiration from the inexhaustible life of the Divine, dares to lift the torch of hope, even in this blackness of night.

The history of man does not stand at five minutes to twelve. It is just at the dawn of its day of light and progress. Mankind has just begun to emerge from the half-man-half-beast stage. Some day it will assume the full divine contours in which mankind is to be fashioned. Righteousness, brotherhood, peace - these things will come to prevail in the end of days, though the road is long and terribly hard.

1) In London: early in July - at the Height of the season - And a marvellous
city it is - this metropolis of the world - This Hub of an Empire - $\frac{1}{4}$ globe -
Athirst with trade, commerce and industry
Bustling with life and boundless energy -
Rich in culture, endowed with all the institutions of art and learning which
our associates with civilization -
A city steeped in history and traditions, strong with the ~~undefeated~~ ^{undisputed}
strength of centuries, and, withal, as ~~modern~~ up-to-date as stream-
lined modernity itself.
A city gay with life, music, theatres, & crowded thoroughfares.
And yet - strangely incongruous - fantastically unreal in the midst,
all this - they were building trenches and dug-outs in Hyde Park
As you came into your hotel from a concert, or a visit to one of the
great museums - you were handed a pamphlet: "Some Things you
should know if war should come" - Air-raid warnings - Gas masks
You felt suddenly as if some ghost had suddenly passed by you -
Some as if the bony fingers of some skeleton ~~had~~ ^{had} were tapping
at your elbow ~~summoning~~ ^{summoning} you down to another world - a
dark, dark, sepulchral world ^{just one step down} ~~underlying~~ ^{below} this brilliant world,
You sat in beautiful Ken Gardens - a veritable heaven of
flowers, of perfume and peace, or on some great campus
of a college in Oxford, or by the gentle Avon in the green
wood that is prever Shakespeare, and suddenly your eyes
wandered to the lead-lines of your newspaper - 2 weeks evacuation
for your home - ~~or~~ ^{or} how children are to be
evacuated from London - and you felt an acid taste
in your mouth. Here were words clothed about with death.
Here was something - cold - sinister - primordial - utterly from
another world - reminding you that this peace, this beauty,
this order and this civilization might any moment slither

and sink into another world - not of light but of darkness, of blood, of horror, of bestiality and of death.

You are overtaken by a frightening sense of the impermanence & the insecurity - of our civilization. You become aware of the very slender and fragile supports upon which ~~all~~ our civilized way of life really rests.

War ~~is~~ on the threat, War reveals how close we are to the ^{wild, the} jungle and the beast, and how easily we can back-slide into it.

2/ 3 Stages in man's Rel. Evolution - before he reached Stage of Sp. Religion.

① Animal Worship. ③ Gods in Human forms - anthropomorphic.

The Intermediary stage was that of Gods $\frac{1}{2}$ Human, $\frac{1}{2}$ Beast.

= Satyrs, Fauns, Pan, Minotaur.

And mythology, which is the history of the Gods, early man, ^{would} abounds in legends of desperate battles between these 3 groups of deities, and also, of the metamorphoses of one into the other.

3/ So also can 3 stages be traced in the Evolution of Man himself.

① Stage, the Beast - the animal origin of man. and (3) Stage of "Homo

Sapiens" - man of Reason & Faith -

The intermediary stage - $\frac{1}{2}$ Man, $\frac{1}{2}$ Beast

Whole ~~task~~ ^{struggle} of Civilization & Sp. Religion is to keep man on the 3rd ^{completely} human level - to keep him from "~~back-sliding~~" what the

- Bible calls (אָבְנָה וְעָלָה וְשָׁבָה וְעָלָה) - "perpetual back-sliding".

- Sharpest denunciation:

"They went backward and not forward!"

אָבְנָה וְעָלָה וְשָׁבָה וְעָלָה

4/ First thing that Religion can offer to a War Torn Civilization is just this: The Challenge to go forward, in spite of the appalling back-sliding which is War!

43.
For War is a Back-siding - and those who are responsible for it, or who believe in it, as an instrument of nat. policy, or who regard it as desirable, or as an inevitable element in the order of society, are part of the part - belong to Stage 1/2 Man - 1/2 Beast.

(a) In sub-human world - war - is of the very order of nature. There

"Every who each slew a slayer and in turn was slain, life living upon Death" These are witnesses -

"On vast, savage, grim conspiracy of mutual murder"

But Man - ^{the} sharing in this original conspiracy ^{of War} ~~is~~ ^{was} destined to rise above it - to move away from the Beast stage -

Man was given the Vision - denied to lower species - the Vision of Peace -

There are those who call this Vision - a Deception (Just)

But these ^{"old Germanic lust for battle"} ~~Moeths~~ are dangers of the "mid-way world" -

They are "1/2-way" men - "not completely men"

^{Peace} It is not a dream - but a goal. War is not an element in the order, the third world in which man should live. It is war, not peace, which reduces humanity to conditions worse > materialism - to brutality - bestiality - hate - corruption - misery and poverty. (next page)

Religion, ^{they} regardless how often men & nations "go backward," must keep up the challenge. The prospect is very discouraging.

The odds are all against it. And yet - it is still possible -

~~Must continue to set up Dykes against Tides of Bestiality.~~

- Diogenes - the Cynic - ^{Hill} ~~Hill~~

- Must continue to ~~perpetuate~~ denounce the jungle ethics of war, - insanity of insurance this ornament, madness of drawing ~~future. Trade in armaments - Slave Trade -~~ ^{the force given culture instrument}

Religious proclamations that
the destiny of a nation, and the purpose, its pol. activity, should be not
expansion or conquest - but to increase the ~~happiness~~ well-
being - physical, intellectual, & spiritual ^{quality} of its citizens. (5)

stop
Then education, greater justice, greater equality, free
opportunities, closer cooperation. ^{1907 - "Some grapes"}
Our industrialism ^{has led to bitter individual strife, to class}
struggle - within each country. "The richer the nations the
greater the poverty & discord"
The struggle for foreign markets and spheres of econ. penetration
and influence has led to the building up of huge armies
and navies, to the militarization of nations and to war.
Our communications - ^{autarky} ^{to Nationalism} ^{George Orwell}

| 1. O beautiful for spacious skies,
For amber waves of grain,
For purple mountain majesties
Above the fruited plain!
America! America!
God shed His grace on thee,
And crown thy good with brotherhood
From sea to shining sea! | 3. O beautiful for heroes proved
In liberating strife,
Who more than self their country loved,
And mercy more than life!
America! America!
May God thy gold refine,
Till all success be nobleness,
And ev'ry gain divine! |
| 2. O beautiful for pilgrim feet,
Whose stern, impassioned stress
A thoroughfare for freedom beat
Across the wilderness!
America! America!
God mend thine ev'ry flaw,
Confirm thy soul in self-control,
Thy liberty in law! | 4. O beautiful for patriot dream
That sees beyond the years
Thine alabaster cities gleam,
Undimmed by human tears!
America! America!
God shed His grace on thee,
And crown thy good with brotherhood
From sea to shining sea! |

Responsive Reading: (The people standing until after the second hymn.)

I will lift up mine eyes unto the hills,
From whence cometh my help.

*My help cometh from the Lord,
Which made heaven and earth.*

He will not suffer thy foot to be moved;
He that keepeth thee will not slumber.

*Behold, he that keepeth Israel
Shall neither slumber nor sleep.*

The Lord is thy keeper;
The Lord is thy shade upon thy right hand.

*The sun shall not smite thee by day,
Nor the moon by night.*

The Lord shall preserve thee from all evil;
He shall preserve thy soul.

*The Lord shall preserve thy going out and thy coming in
From this time forth, and even for evermore.*

Hymn:

1. How gentle God's commands!
How kind His precepts are!
Come, cast your burdens on the Lord,
And trust His constant care.
2. Beneath His watchful eye
His saints securely dwell;
That Hand which bears all nature up
Shall guard His children well.
3. Why should this anxious load
Press down your weary mind?
Haste to your heavenly Father's throne,
And sweet refreshment find.
4. His goodness stands approved,
Unchanged from day to day:
I'll drop my burden at His feet,
And bear a song away. Amen.

MESSAGE FROM THE PRESIDENT

TO MEMBERS AND FRIENDS OF THE INDIANA STATE TEACHERS' ASSOCIATION in convention assembled, we, the officers, extend a friendly greeting and cordial welcome. To this, the eighty-sixth annual meeting, we come deeply conscious of the need of the hour—a re-emphasis upon the significance of education as fundamental in making more secure a democratic society.

We assemble for the purpose of bringing together in our group discussions the experiences and observations peculiar to our respective fields. From the platform in our general meetings we offer discussion by leaders in related fields, of problems and issues which should and do claim our serious thought and consideration.

May we share together during this brief interval the common purpose of this convention, an intelligent approach to modern educational issues, coordinating our efforts toward accepted goals in our profession, ever mindful of that which will make the largest and richest contribution to the educational welfare of youth who represent the coming generation. May their inheritance be a philosophy of peace and good will toward all peoples as a result of our relationship as teachers in this day of confused thought and action. May we continue to point out the way and may truth prevail to the enrichment of our fellowship together.
