Histadrut, 1940.

Histadruth

40-28

October 22, 1940

I have read with satisfaction that the Histadruth is celebrating this year its twentieth anniversary. May I take this occasion to extend to you my warmest felicitations. The story of the development of the Yishuv in Palestine in the last two decades simply cannot be told without constant reference to the remarkable work of the Histadruth. Regardless of party or ideologic differences, everyone will agree that this dynamic organization of the working forces of Palestine has contributed monumentally to the social structure, the labor standards, the vital institutions, and to the whole spiritual tone of our national renaissance.

May its future be even greater than its past!
