The Yishuv Goes Forward...

The Yishuv goes forward . . . defending, rescuing and building . . . for Jewish Statehood and security for our people. Determined to carry on, valiantly and gloriously, Palestinian Jewry will never be stopped by political crises, martial law, the British armed might, or other British tactics.

In this decisive, history-making period . . . when the fate of Palestine is before the United Nations . . . it is imperative that New England Zionists stand up and be counted. Demonstrate your loyalty to Palestine and its gallant builders and defenders by participating in the Convention deliberations, and considering how to meet the emergency problems of these crucial days with determination and strength.

We stand together with the valiant Yishuv in the fight for a Jewish Nation . . . for the right to live as free human beings . . . everywhere.
