IS AMERICA FACING WORLD LEADERSHIP?

Mrs. Franklin D. Roosevelt

Temple Emanuel is proud of the privilege of presenting the "FIRST LADY OF THE WORLD" to the community of Worcester. Truly, Mrs. Roosevelt is one of the great Americans in our history. A respected diplomat, author and humanist, she has served in many critical positions representing the United States Government, the United Nations as Chairman of the Commission on Human Rights and the American people to other nations throughout the world. A poll by a leading national magazine revealed her to be, to the American women, "the most popular living American of either sex." According to the American Institute of Public Opinion she has been selected the "most admired woman living today in any part of the world."

MAN, SPACE AND THE ATOM

Dr. Ralph E. Lapp

Dr. Lapp has played a vital part in the developments that have marked the Atomic Age from the Manhattan Project to the reality of the H-bomb. No one is better qualified to analyze the present dangers included in Atomic testing with its resulting fallout, or to realistically evaluate the present comparative status of the United States and Russia in the race for space and Atomic domination.

INTERNATIONALLY RENOWNED FOLK SINGER

Co-star for two years with Mary Martin in "The Sound of Music," and acclaimed artist of stage, screen, television, and radio, Theodore Bikel is also one of folk music's most treasured artists. Speaking seven languages fluently, Bikel's repertoire includes over 500 songs from twenty lands in their native tongues. His tremendous appeal as folk singer is demonstrated by the turnouts to his frequent one-man concerts in New York's Town Hall and other concert halls throughout the country, together with his eleven best-selling Elektra albums. As the New York Herald Tribune reported recently: "People outside the hall were offering any price for any seat inside; the hall itself overflowed onto the platform!"

DR. ABBA HILLEL SILVER

Dr. Silver has for forty-four years been spiritual leader of The Temple in Cleveland, the largest liberal congregation in the United States. Dr. Silver was recently honored by Life Magazine as one of the twelve leading preachers in the United States. A world renowned author, his book "Where Judaism Differed" has become a religious best seller. The foremost spokesman of Zionism in this country, he was one of few primarily responsible for the establishment of the State of Israel. He is considered the ablest preacher in the American Rabbinate.

The TEMPLE EMANUEL COMMUNITY FORUM is a non-profit series open to the entire community. Its purpose is to provide a platform for the discussion of subjects of current interest. No subject, however controversial, is barred from discussion. Our sole requirement is that our speakers be authorities in their respective fields, and that they permit themselves to be questioned on their subject in an open forum. The nature of the world today makes it mandatory that we have full understanding of the trends of the times. We of Temple Emanuel are proud to provide the means of bringing some light to the community and to its citizens in a world in which so much darkness prevails.
