Ben Gurion's 75th birthday, 1962.

75th birthday of Ben-Gurion
62-8
9

April 23, 1962

Happily I join the host of friends of David Ben-Gurion in congratulating him on his seventy-fifth birthday. World Jewry and especially those who have worked closely with him in the Zionist movement know of the monumental services which Mr. Ben-Gurion has rendered to the cause of Israel's re-birth, and his name will forever loom large in the history of this heroic, turbulent and creative generation of Jews. I marvel at the tremendous energy of Mr. Ben-Gurion at seventy-five, and I wish him many more years of physical and intellectual vigor.
